NOBLES OF MYSTIC SHRINE ARRIVING

On the Annual Pilgrimage Across the Sands to Wrightsville Beach

ALL DOORS OPEN TO RED FEZ

Members of Masonic Organization Will Gather Today From All Over North Carolina in Their Annual Session

From far and near members of Oasis Temple of the Ancient Arabic Order of the Mystic Shrine will invade the City of Wilmington today on their way to the Oceanic Hotel, Wrightsville Beach, where it has been decreed by the Illustrious Potentate of the Temple, O. W. Spencer, of Salisbury, that all Nobles shall assemble for the purpose of bringing many novices from the lowest depths of ignorance to a plane of perfect enlightenment. The vanguard of the semi-annual pilgrimage arrived yesterday and last night, and today the remaining Nobles will come.

If you hear a big noise today don't get scared. Today at noon the famous Arab Patrol and other Shriners to the number of 200 or more will reach the city coming on a special train from Charlotte. Handsomely uniformed they will march up Front street to the terminal of the beach line cars for the purpose of letting the people in these parts know that there is "something doing." And from the time they reach the beach until tomorrow night there will be something of a decidedly interesting nature going on all the time.

At 2 o'clock today the candidates will begin to register at the Oceanic Hotel and from this time until they cross the hot sands of the desert tomorrow night they will be kept busy, very much so, learning something of the crooked ways of the devious path that leads to the Mystic Shrine. Following the registration there will be a business session in the convention hall at the Oceanic Hotel. At 3:30 o'clock this afternoon the ladies in the party will be given a luncheon at the ladies' pavilion of The Oceanic. Mrs. Cuthbert Martin is chairman of the Ladies' Entertainment committee and the luncheon will be given under her direction.

At 7 o'clock the Shriners' parade will form at the Oceanic Hotel and will proceed to Lumina pavilion. This will be headed by the Arab Patrol which carries its own band for furnishing music, and they will be followed by the members of the order. At 8 o'clock the Arab Patrol will give one of its fancy exhibition drills in Lumina pavilion. At 8:30 o'clock one of the finest souvenir dances of the season will be given in honor of the Shriners by the Tidewater Power Co. The parade, drill and dance will be open to the public.

Friday morning beginning at 9:30 the candidates will be given instructions in some of the secrets of the order. The Tidewater Power Company has kindly tendered the use of Lumina pavilion and here at 11:30 the ceremonial procession across the hot sands of the desert begins in earnest. This part of the programme is not open to the public. The supply of "fresh meat" is unusually large numbering in the neighborhood of 125.

Friday afternoon the ladies will be given an automobile ride over Wilmington and its suburbs and a luncheon at the Elks' Temple.

Around the Oceanic Hotel today and tomorrow there will be various little oases distributed here and there though the candidates will not be allowed to find the mystic oasis, which is the chief joy of all Shriners, until tomorrow night. On the north side of the Oceanic Hotel this oasis has been enclosed by Grand Manager H. E. Longley with a wire fence. Near this oasis a crescent-shaped table has been erected, and here the banquet will take place tomorrow night. The paths that lead to it are strait (not straight) and narrow, and few there be who can travel along this highway. There are sands in reality a'plenty, and before the "fresh meat" arrive they will have to know many of the inner secrets of the order.

In the oasis will be found the real camel's milk which is warranted to dispel all human woes and bring rest to weary souls. It relieves the thirsty, rejuvenates brokendown spirits, makes the old feel young, strengthens the weak, cheers the sorrowing and makes glad the hearts of those who partake. Choice viands of many nations will be served, and when once the novice has reached this spot he will be content to remain for here he will find rest from all torture of soul and body.

The cottages and hotels on the beach are in gala attire, hundreds of flags and thousands of yards of cloth in the colors of the order have been used in decorating. Never before has the island presented such a pretty effect as today. The local committee in charge has spared no efforts to make all arrangements for the enjoyment of the visitors full and complete. From one end of the beach to the other there is one long stretch of cloth showing the colors of the order whose aim and purpose is to produce joy and good cheer.

Practically the entire Oceanic Hotel has been placed at the disposal of the visitors, and it is expected that this will be the largest delegation of visitors that will come to the beach this year. Certainly there will not be one that will be more royally entertained. The total number is expected to reach 500 or 600 and they will come from all sections of the State.

While most of these will be Shriners it is expected that there will be many others also who will come to witness that part of the jollification that is public. There will be a large number of ladies who will come, and special arrangements have been made for their entertainment. Mrs. Cuthbert Martin has charge of their entertainment, and will see that they enjoy themselves to the greatest possible extent.

From noon today until tomorrow night there will be fun galore all along the beach. Every sign will have a meaning of its own, and every movement will have some signification, but if you don't understand their purport don't ask anybody for they probably won't know, and wouldn't tell if they did.

The Shriners will have the entire city at their disposal, and will no doubt pull off many original stunts, the like of which has never been seen before. For weeks and months Wilmington has been preparing for them, and today she extends a royal welcome to the apostles of good cheer. Get in the procession if you can, and if you can't follow the best you know how.

ORGANIZED LABOR ARRAIGNED

Retiring Governor of Georgia Directs Hard Blow at Labor Unions in His Farewell Message to Legislators

Library of Congress

Atlanta, Ga., June 25.—A caustic arraignment of labor unions, which it is charged that they form the most widespread and aggressively exacting trust in America," is contained in the farewell message of Governor Joseph M. Brown, presented to the Georgia Legislature at its opening session here today.

Governor Brown's criticism of organized labor is made in connection with his argument for the enactment of laws requiring compulsory arbitration of differences between employes and employers. He predicates this recommendation upon the strikes of employes of the Georgia Railroad and the Augusta Street Railway Company last Fall. Both of these strikes, the Governor declares, were "manifestly indefensible and condemnable," and "the strikers placed themselves in a state of open rebellion to the laws of Georgia."

"We are brought face to face with the fact," the message continues, "that these unions, or combinations of employes on public service and other corporations have forced their wages above those received by workmen in all other departments of life who have not formed these aggressively militant combinations.

"The trend of the laws of the present day is to suppress combinations, or trusts, in restraint of trade. Yet while it is a matter of public note that the labor trust is the most widespread and aggressively exacting trust in America, politicians pander to it, because of its voting power.

"The labor unions by combination which they work through strikes and kindred methods are aggressively levying a toll upon all the other elements of our citizenship. They have organized a trust and demand that all other people buy labor at whatever price they choose to put upon it. And contemporaneously they are trying to force from employment all similar workmen who do not join their orders.

"I do not declare that all of the members of the labor unions are willful violators of the law. Yet they are the victims of a system which is breeding anarchy, which already has put the State's constitution in contempt, which has relentlessly wronged hundreds of thousands of their fellow citizens, who have not offended them, which in plain words, has applied lynch law methods to millions of dollars' worth of property."

Among other recommendations made by Governor Brown in his message are the following:

Amendment to the registration law; action toward double-tracking of the main lines of principal railroads in the State; appointment of commission to devise plans for a farm credit system; law providing for inheritance tax; reform of prison and judicial systems; reduction of State Railroad Commission to three members, and authorization of an agreement whereby the copper smelters in the Duck Town region can continue to be operated under which the property of citizens in the vicinity will be protected.

The House and Senate convened shortly after 10 o'clock this morning. Senator J. Randolph Anderson, was elected president of the Senate, his opponent, Senator John T. Allen, having withdrawn.

Representative W. H. Burwell was unanimously elected speaker of the House, Representatives Hardeman and Sheppard having dropped out of the contest last night.

STATE BOARD OF HEALTH.

Praise for Dr. E. J. Wood, of Wilmington, a New Member of Body.

Editorially, yesterday's Newbern Journal contained the following that will be of interest in Wilmington:

"Some new members on the State Board of Health are Dr. Edward J. Wood, of Wilmington; Dr. A. A. Kent, of Lenoir, and Dr. Cyrus Thompson, of Jacksonville. Dr. Wood has won a good deal of fame by reason of his researches in connection with one of the new-fangled diseases—perragra, we believe it is—and Dr. Thompson is well known in this section as being deeply interested in the public health as well as thoroughly capable to give expert advice as to the best means of preventing disease. Dr. Kent is not so well known in this part of the State, but he is probably a man of the same type as Drs. Wood and Thompson.

"It is very important to the public who constitute the State Board of Health. Hence we are calling attention to the live and progressive physicians who have been placed on the board in the place of others who have resigned or whose terms have expired.

"The publicity work of the Board in recent years has been very effective indeed and we don't doubt that its activities in its other departments of work have been just as marked. The members of this board are the conservators of the life and health of the people and it is difficult to conceive of more important public duties than theirs."

WAR DEPARTMENT ISSUES STATEMENT

Regarding Withdrawal of Federal Support from South Carolina

A REPLY TO INQUIRIES

Secretary Garrison Gives Brief Review of Facts Regarding the Relation of His Department to Governor Blease

Washington, June 25.—Withdrawal from South Carolina of the support given by the Federal government to all other States and territories brought many inquiries to the War Department today, and caused Secretary Garrison to issue the following statement:

"With respect to inquiries made of me concerning the relationship between this department and the Governor of South Carolina, the facts are, briefly:

"Those in control of the National Guard of South Carolina were not complying with the law entitling them to Federal aid. The attention of the Governor was called to this and a rather sharply worded reply received. Fearing that there was some misunderstanding, I wrote a long explanatory letter to the Governor, stating the law and the particulars in which his State had failed to comply, and suggesting that upon this being brought to his attention it was supposed that he would desire to comply with the law and continue to receive the federal aid. In response I have received another sharply worded letter reiterating his previous position and practically stating that South Carolina did not wish any federal aid, and would not do those things necessary to secure it. The latest letter received by me from the Governor, is self-explanatory and seems to close the matter, is as follows:

"'June 24th, 1913.

"'Hon. Lindley M. Garrison, Secretary of War, Washington, D. C.

"'Dear Sir: I am in receipt of your letter of June 13th, in which you state:

"'After careful consideration of your communication (letter of June 11th), I am forced to the conclusion that you leave the War Department no other course to pursue than to withdraw all federal assistance to the organized militia of South Carolina, and it is with great regret that I have to inform you that such action will be immediately taken.'

"'This announcement is very pleasant to me, I fought this Dick law when I was in the Senate, and I have seen the wisdom of my opposition since, and nothing gives me more pleasure than to see South Carolina relieved from its iniquitous provisions.

"'Thanking you on behalf of myself, I am,

"'Very respectfully,

"'COLE L. BLEASE,

"'Governor.'"

WILL PROTECT AMERICANS

Department Will Look Out for Citizens on Mexican Border

Washington, June 25.—After Representative Smith, of Texas, had appealed to President Wilson today to see that Americans in El Paso did not suffer in the threatened battle between Mexican Federals and constitutionalists at Juarez, Mr. Smith was assured by the Secretary of War that two full regiments of cavalry could be assembled on the Texas border within 12 hours.

Brigadier General Bliss has full authority to concentrate his forces wherever necessary for protection of American lives.

Already at Fort Bliss, across the Rio Grande from Juarez, are five troops of the Second Cavalry, in addition to the machine gun platoon of that regiment. The remainder of the Second cavalry is on patrol duty between El Paso and Sierra Blanca, while the 13th Cavalry is guarding the border between El Paso and Lang's Ranch, New Mexico.

Secretary Garrison, of the War Department later called on the President and informed him there were no reports from the border to warrant alarm, and explained the position of troops in the vicinity of El Paso.

The secretary said afterward that there had been no change in orders issued under the last administration to guard against firing into American territory.

GENERAL CONFERENCE

of M. E. Church, South, Opens Near Waynesville, N. C.

Asheville, N. C., June 25.—With an attendance of nearly four thousand delegates and visitors representing all sections of the United States and several foreign countries, the General Missionary conference of the M. E. Church, South, opened at Lake Junaluska near Waynesville tonight with Bishop James Atkins in the chair. Seated on the stage with Bishop Atkins was the entire college of bishops of the M. E. church, and other church dignitaries of national prominence.

Bishop J. S. Key offered the prayer, and Dr. Robert E. Speer, secretary of the general missionary movement of the Presbyterian Church in the United States, delivered the opening address.

The conference will last for five days, and the total attendance is expected to reach 7,000 or 8,000.

London, June 24.—The Duke of Southerland is critically ill at his London home. He is in his sixty-second year.

RAILROADS MAKE CONCESSION

Outcome of Conference Between Corporation Commission and Traffic Managers Encouraging—Concessions Offered.

(Special Star Telegram.)

Raleigh, N. C., June 25.—That progress is being made in the negotiation between the Corporation Commission and the freight traffic managers of the railroad companies for the elimination of freight rate discriminations aganst North Carolina shippers, is indicated by the fact that the conference in progress at Old Point Comfort, Va., the past two days has resulted in an agreement for the freight traffic managers to have time for another conference with the presidents of the several inter-State systems as to the possibility of still further concessions by the railroad companies, in order to meet the demands by the commission for the shippers.

The statement is given out tonight at the offices of the commission that time has been allowed for the conference between the traffic managers and the railroad presidents and it is stipulated that there will be an early resumption of the negotiations for immediate agreement or final termination of the efforts in that direction.

Members of the commission and Secretary Maxwell returned from Old Point Comfort this evening and decline to discuss the progress of the negotiations except to say that the freight traffic managers have gone as far as they are allowed to go in concessions until they are further instructed by their presidents.

Very considerable concessions have been offered, but they are not as great as the commission feels that the shippers are entitled to.

On his arrival from the Old Point Comfort freight rate conference Secretary Maxwell, of the Corporation Commission, found awaiting him a letter from President Fred N. Tate, informing him of his purpose to oppose the proposition of Mr. Maxwell for the establishment of a steamboat line between New York and other points and Wilmington to force desired freight rate concessions to North Carolina shippers.

Mr. Maxwell is not at liberty, he said, to make public the Tate letter, but it is understood here that it is preliminary to a public statement by President Tate for lining up the Just Freight Rate Association, of which he is the president, against the Maxwell idea for the steamship line.

REMARKABLE OPERATION.

Undergone by Woman Who Took Bichloride of Mercury.

New York, June 25.—The advanced surgical operation known as decapsulization of the kidney was performed upon Mrs. Juliano Riso at Bellevue Hospital today in an effort to save the woman's life after she had swallowed 15 grains of bichloride of mercury, an amount similar to which caused the death of B. Sanders Walker, the Macon, Ga., banker several weeks ago.

The operation is new in surgery and has been performed but a few times in the United States, and for the first time at Bellevue Hospital today. It consists of making an incision in the back and removing one of the kidneys, which is split and peeled and then replaced.

In the case of Mrs. Riso, the kidneys were so impregnated with the poison that it was necessary to remove both parts of the organ.

At the last report tonight the patient had not fully rallied from the effects of the ether, but the surgeons held out considerable hope for her recovery.

"FUN" IS FATAL TO BOY

Force Tube Down Throat to Fill Stomach With Air

Camden, N. J., June 25.—Joseph Defini, 18, employed in the factory of a talking machine company, died in the Cooper Hospital today from a rupture of the abdomen caused by two other workmen forcing a brass tube down Defini's throat and filling his stomach with compressed air. Eugene Bysher and Walter Simon were arrested and will be held pending the coroner's inquest.

Other employes of the company heard Defini's cries for help, but as Simon and Bysher had said they "were going to have some fun with Defini," nobody paid any attention. Defini was removed to the hospital in an unconscious condition, and it was not until some time after his death that the facts of the case became known.

CAUCUS APPROVES FREE SUGAR IN 1916

Free Raw Wool Also Established in Tariff Revision Bill

WILSON'S POLICY IS RATIFIED

Two Days' Fight Before Final Adjustment is Reached—Approval of Schedules After Prolonged Discussions.

Washington, June 25.—Free sugar in 1916, and free raw wool, are now established in the tariff revision bill, having been approved late today by the Democratic aucus of the Senate, after a two-days' fight. The sugar schedule as reported by the majority members of the Finance committee, and practically as it passed the House was approved by a vote of 40 to 6. Free raw wool as submitted by the majority, and just as it passed the House, swept the Senate caucus by a vote of 41 to 6.

This ratification of President Wilson's tariff policy, he having insisted upon the wool and sugar propositions before the Ways and Means committee in the beginning, came after a long series of developments since the tariff bill passed the House in which the President had been an active participant. When the fight of the anti-free sugar and anti-free wool Democrats was geting hot, the President issued a public statement declaring that any suggestion of compromise on the wool and sugar schedules ideas was absolutely out of the question, and later he stirred all administration leaders to action when he made his charge about the existence in Washington of an "insidious lobby" investigation of which has brought results regarded as favorable to the tariff bill.

The six Democratic Senators who voted against free sugar on the final vote approving the schedule were Hitchcock, Nebraska; Newlands, Nevada; Ransdell and Thornton, Louisiana; Shafroth, Colorado, and Walsh, of Montana.

The six who opposed free raw wool to the end were Chamberlain, of Oregon; Newlands, Nevada; Ransdell and Thornton, Louisia, and Shafroth and Walsh.

No attempt was made in the caucus today to bind the members to the action of the caucus. The question will come up when the entire bill has been passed upon. Some members fought it, but administration leaders said tonight they believed only the two Louisiana Senators would ask to be released from the caucus pledge if one is submitted. The general opinion is that a binding resolution will be offered.

Approval of the schedules came after prolonged discussion, and after several amendments had been voted down. On some of the amendments the opposition showed more strength, the maximum being 10 votes for Senator Shafroth's amendment to the sugar schedule. This would have eliminated free sugar, and substituted a duty of approximately one-half cent a pound on refined sugar. This amendment was lost by a vote of 37 to 10, Senators Thompson, Chamberlain, Hitchcock, Newlands, Shafroth, Lane, Ransdell, Thornton, Tillman and Walsh voting for it.

When this had been lost Senator Thompson, of Kansas, offered an amendment to retain the Underwood rate for three years, reducing it 50 per cent. in 1916, and 15 per cent. each succeeding year until it reached the free list. Senators Chamberlain, Fletcher, Hitchcock, Newlands, Shafroth, Thompson, Tillman and Walsh supported this amendment. The amendment offered by Senator Thornton to eliminate the free sugar provision and maintain the Underwood rates indefinitely, was supported only by Senators Ransdell and Thornton.

Senator Walsh offered the amendment to the wool schedule, proposing a duty of 15 per cent. ad valorem on first-class wools, and that wools of the second and third classes, such as carpet and clothing wool, be free. This was defeated 39 to 7, Senators voting for it being Chamberlain, Newlands, Ransdell, Shafroth, Thompson, Thornton and Walsh. Three Senators were absent, Culberson, Owen and Lewis.

Discussion of the issues was lively all day. Senators Ransdell, Thompson, Thornton, Newlands, Lane and Shafroth took up most of the time for the opposition, while the chief administration defenders were Senators James, Thomas and Pomerene. The arguments were long and the weather hot, and most of the Senators removed their coats in the privacy of the caucus room.

When sugar and wool had been disposed of the caucus ratified the committee amendments placing hair of the Angora goat on the free list. Consideration of the agricultural schedule was then resumed and a dispute at once arose over the committee amendments putting a countervailing duty on wheat and uour. As the discussion developed the opposition grew and decision of the question went over until tomorrow. Some Democrats asserted following the adjournment that the countervailing duty would be stricken off, leaving wheat and flour on the unrestricted free list on a parity with cattle and meats.

TWO ARE KILLED.

Foreigners Frightened at Bursting Fuse Jump to Death.

Rochester, N. Y., June 25.—Six foreigners riding in a closed car on the Manitou Electric Railway, became frightened today when a fuse blew out and jumped through a window, falling under the wheels of a trailer. Two of them were instantly killed and the other four so badly injured they probably will die.

DISCUSSING SALE OF A. & N. C.

Legislative Committee in Session at Morehead City Investigating Duncan Proposal to Buy the "Old Mullet" Road.

(Special Star Telegram.)

Atlantic Hotel, Morehead City, N. C., June 25.—The following committee: E. T. Young, E. A. Stevens and W. H. Weatherspoon, appointed by the House, and Zebulon Weaver and W. L. Parson, appointed by the Senate, (Senator Gilliam, of Edgecombe, is detained at home), named by the last General Assembly to investigate the proposition made by Mr. E. C. Duncan to purchase the State's stock in the Atlantic & North Carolina Railroad, met at 10:30 o'clock today, pursuant to adjournment on yesterday.

A permanent organization of the committee was effected and Mr. E. F. Young, of Dunn, was elected chairman, and Mr. W. H. Weatherspoon, of Laurinburg, was elected secretary.

The committee first went into an investigation of the terms of the lease under which the Norfolk Southern Railway holds the property of the Atlantic & North Carolina Railway property. The lease went into effect on the first day of September, 1904. The lantic & North Carolina Railway. The lease went into effect on office furniture and fixtures, and all the rights, franchises and privileges appurtenant thereto. The term of the lease is for 91 years.

It provides that the lessee shall pay an annual rental of 3 1-2 per cent. of the par value of the capital stock during the first 10 years, and to increase the rental at that time, and at the expiration of each succeeding 10 years, one-half of one per cent. of the par value of the capital stock until the rate of 6 per cent. is reached.

The lessee is required to keep the insurable part of the property insured for the sum of $60,000 and to pay the premium thereon and to pay the interest on the mortgaged indebtedness of the road of $325,000. The lease provides for $250,000 in permanent improvements to be made by the lessee, and contains the usual requirements for the return of the property at the expiration of the lease term in as good condition as when the property was turned over to the lessee.

The committee found that the road has been greatly improved since it was leased and at the time of adjournment today it was inquiring into the proposed improvements to be made by the Norfolk Southern in the physical condition of the property and the facilities for transportation of freight and passengers.

Tomorrow morning the committee will go to Cape Lookout, seeking information about the proposed rescue harbor to be established by the government, and about the possibilities of extending the railroad to that point.

Mr. Duncan has been invited to appear before the committee upon its return from Cape Lookout tomorrow afternoon.

Constitutional Committee Meets

The commission appointed by the Legislature to prepare amendments to the State constitution for submission to the special session of the Legislature met at 9:30 A. M., all members present except Alexander and Doughton, who are absent on account of sickness, Doughtridge who is in Europe, Ivie and Stubbs. Ivie will be here tomorrow.

The bill introduced at the last Legislature to increase the pay of legislators was reported unfavorably, and substitute was reported to pay members $6 a day and presiding officers $10. Rouse was added to the committee on education on account of the absence of Alexander.

The amendment to allow the use of the Bible in public schools was reported favorably. The Merchants' Association asked to be heard on the homestead law. The amendment giving the Governor the veto power as to all bills and resolutions and items of appropriation bills was passed upon its second reading and referred to a committee for perfection in its phraseology. The vote on this measure was, Ayes, Ward, Washington, Connor, Justice, Page, Devin, Williams, Scales, Noes, Bailey, Rouse, Cooper, Grant, Wallace, Wooten, Haymore.

Representatives from the State Municipal League, including Clement, Manly and T. J. Murphy, appeared before the commission advocating that fines in municipal courts go to the municipality instead of to the county school fund.

BRUCE CARRAWAY.

REFUNDS OF EXCESS CHARGES

Minnesota Tax Commissioner Will Make Railroads Come Across

St. Paul, Minn., June 25.—Minnesota railways making refunds to shippers and passengers of excess charges during the period of rate litigation, are entitled to a gross earnings tax rebate on all sums so paid, according to J. G. Armson, chairman of the State Tax Commission. The amount of refunds is estimated at $3,000,000 and on this basis the State would return to the railways $120,000 in taxes.

McNeil V. Seymour, local attorney for the Chicago, Rock Island & Pacific, late today signed an agreement to abide by the decision to adopt the two-cent passenger fare and adopt freight rates as soon as possible and make the rebates to passengers and shippers. This leaves only the Chicago Great Western in doubt, and its course is to be determined at a meeting of directors shortly.

BULLS CHARGE CROWD

One Killed and Three Men Tossed in Spanish City

Almeria, Spain, June 24. — Four fierce bulls broke loose today while they were being taken to the bull ring. They charged furiously down the narrow streets, goring all in their path. One man was killed and many were injured. Three old men were tossed. Eventually three of the bulls were caught, and the fourth rushed into the sea and was drowned.

CARS PLUNGE FROM TRACK INTO RIVER

Eight Killed in Wreck and More Than Twenty Injured

CAUSED BY SPREADING RAILS

Accident on Canadian Pacific Railway Near Ottawa, Canada—Seach for Missing Bodies Continues—Colonists.

Ottowa, Ont., June 25.—Eight persons were killed and more than 20 injured this afternoon in a wreck of the Westbound Winnipeg express on the Canadian Pacific Railway. The colonist cars, crowded with Scotch immigrants, newly arived from Glasgow, and en route for the West, skidded down the embankment and plunged into the Ottawa river. In these the eight known victims, four men, three women and a child, met death. Their bodies were recovered, and search was continued for others. Of the injured the condition of several is critical.

The accident, due to spreading rails, occurred only three miles east of this city, and physicians, nurses, ambulances and police patrol wagons were at once rushed to the scene.

Four cars and the locomotive remained on the track, but in addition to the colonist cars which fell in the river, two cars were thrown on the land side of the embankment and another, first-class, was whipped across the track at right angle.

The train crew, with the exception of Conductor Daniel Comeron, escaped unhurt.

LEADERS DEPORTED

Officers of Industrial Organization Warned Never to Return

Marshfield, Oregon, June 25.—Business houses closed for an hour today while proprietors joined several hundred other men in driving two Industrial Workers of the World leaders out of town with warnings never to return.

The citizens then marched to the building where the Workers have been accustomed to gather, and gave the proprietor notice that all other members of the organization and their sympathizers would be similarly treated.

The deported pair were placed in a small boat, supplied with food for a day or two and taken 18 miles from town before they were allowed to land.

The Industrial Workers have been involved in several strikes in the saw mills of this region recently.

CITY IN GALA ARRAY.

Gates of London Thrown Open for President of France.

London, June 25.—President Raymond Poincare, of France, was guest at luncheon of the Lord Mayor and corporation of the City of London, and the "square mile" composing the city proper was in gala array for the occasion. The ancient Guild Hall was a blaze of color.

The French President's progress through streets lined with troops, from York House to the city, was a popular triumph. Thousands of sightseers at every point cheered the visitor.

During the luncheon the hall was crowded with members of the Royal family, cabinet ministers, naval and military officers and high State civic dignitares.

MUSIC PUBLISHER GUILTY

Criminally Libeled Director of Boston Opera House

Boston, June 25.—Philip Kahn, the music publisher, who was found guilty of criminally libelling Henry Russhouse, was today sentenced to imprisonment in the House of Correction for one year.

The libel was contained in a series of special articles printed in music, a magazine published by Kahn, in which the personal and business character of Russell was attacked. At the trial counsel for Kahn endeavored to introduce evidence to show these charges, but Judge Brown would not allow its admission. The defense then refused to contest the case, and Judge Brown directed the jury to return a verdict of guilty.

ON TO GETTYSBURG!

Thousands of Veterans Preparing to Attend Celebration

Harrisburg, Pa., June 25.—Telegrams and notices from Governors are being received at the office of the Gettysburg semi-centennial celebration today giving information of hundreds of additional veterans who plan to attend next week's ceremonies. When the $35,000 appropriation to provide for veterans above the 40,000 estimate was agreed upon, word was sent to all States with a request for prompt replies so that preparations could be made.

It is believed that nearly 50,000 veterans will be at Gettysburg. Establishment of additions to the camp will be hurried so all can be provided for.

JOHNSON GETS A KNOCK OUT

Athletics Routed the Mighty One in Three Innings—Tigers Defeated Naps—Yanks Won From Champs—White Sox.

The Philadelphia Athletics opened up a four-game series at Washington yesterday afternoon, and in the initial performance, made a record for the season in batting the mighty Walter Johnson out of the box in three innings, tallying four runs off three singles, a double, and a homer by the Hon. J. Franklin Baker, the latter being one of the longest hits ever seen on the Washington grounds. Gallia, who relieved Johnson in the fourth, fared little better and was batted to the four corners of the lot. The final score was 14 to 2.

The Dtroit Tigers took the bigger end of the series with Cleveland by concluding the series with a win yesterday afternoon. It was a shut-out affair for the Naps until the ninth inning when two scores were put across on a wild pitch by DuBuc.

The Detroit Tigers took the bigger another of their semi-occasional wins yesterday, defeating the World Champions 5 to 2. Smoky Joe Wood went to pieces in the final inning with the game tied up, and let three scores leak across the plate. The Red Sox again dropped a notch as a result, the White Sox going up to fourth place.

The White Sox took the ending game of the series with St. Louis by a 4 to 1 score. The White Sox will entertain the Cleveland Naps at Chicago today.

Johnson Knocked Out.

Washington, June 25.—Philadelphia easily defeated Washington 14 to 2 today. In three innings Johnson was hit for a double, three singles and a home run by Baker, which was one of the longest hits ever seen on the local grounds. Gallia, who relieved Johnson, was hammered all over the lot. Two games had been scheduled for today, but rain interfered.

Washington ...000 101 000— 2 5 2

Bush, Bender and Lapp and Schang; Johnson, Gallia and Ainsmith and Williams; time 2:05; umpires McGreevy and Connolly.

Detroit Won Postponed Game.

Detroit, June 25.—Detroit and Cleveland played off a postponed game here today, the locals winning 4 to 2. Cleveland never threatened to score until the ninth inning when DuBuc made a wild pitch, netting the Naps two runs.

Cleveland .....000 000 002—2 7 1
Detroit .....100 100 20x—4 9 1

Cullop, Blanding and O'Neill; DuBuc, Lake and Stanage; time 1:55; umpires Evans and Egan.

Yanks Defeated Champs.

Boston, June 25.—New York was not dazed by the sight of the world's championship pennant raised this afternoon for the first time, the visitors defeating the champions 5 to 2. Wood was not hit hard, but went to pieces in the final inning.

New York .....000 101 021—5 4 1
Boston .....000 011 000—2 8 4

Ford and Sweeney; Wood and Nunamaker; time 2:18; umpires Dineen and Hart.

Leaderless White Sox Won.

Chicago, June 25.—Chicago bunched hits off Allison today and won from St. Louis 4 to 1. The locals had no manager, James Callahan having drawn an indefinite suspension as a result of his argument with Umpire Hildebrand during yesterday's game.

St. Louis .....000 010 000—1 7 0
Chicago .....100 300 00x—4 10 2

Allison, Stone and Agnew; Scott and Schalk; time 1:50; umpires Hildebrand and O'Loughlin.

ROWLAND DEFEATS DILLON

Tar Heels Win From South Carolinians 7 to 2

(Special Star Telegram.)

Rowland, N. C., June 25.—Rowland won today's game from Dillon by a score of 7 to 2. The features of the game were the pitching of McLean and the batting of the local team. Weeks, for Dillon, was batted to every corner of the lot, allowing 12 hits, three being for two bases.

Rowland 7 12 3
Dillon 2 5 3

Batteries: Rowland, McLean and Thompson; Dillon, Weeks and Holmes. Struck out by McLean 12; Weeks, 2.

SOUTH ATLANTIC LEAGUE.

Savannah at Top at End of First Half of Season.

Savannah, Ga., June 25.—The first half of the 1913 South Atlantic League season ended today. Savannah finished at the top of the column, having lost 14 games in 57, leading Macon by nearly 200 points. Columbus, Jacksonville, Charleston and Albany finished in the order named. The second half season opens tomorrow.

Skipped His Bond.

Stacy McNeal, one of the porters at the Southern Hotel, who was arrested Monday on a warrant sworn out before Justice Harriss charging him with selling whiskey, failed to show up yesterday at the time set for his trial, thereby forfeiting the cash bond of $100 which he had put up. The money was paid yesterday into the public school fund by Justice Harriss. McNeal has gone to parts unknown as he evidently did not like the prospects of serving a term on the county roads.

WAR HAS BEGUN

Bulgarian Forces Attack Servian Positions in Macedonia

Belgrade, Servia, June 25.—A strong force of Bulgarian troops attacked the Servian positions at Zletovo and Ratkovatz in Macedonia at 1 o'clock this morning.

The attack, according to official information, was unprovoked. Fighting was still in progress at a late hour.

Later reports from the battle scene said the Bulgarian artillery had gone into action, and a fierce fight was in progress in which both sides had suffered considerable losses.

The Bulgarian attack on the Servians has created a dangerous state of excitement here.

The newspapers publish special editions declaring in large type, 'war has begun."

NEGOTIATING FOR PROPERTY.

Clyde Steamship Co. May Purchase Northrop Lumber Co. Site.

The Clyde Steamship Company has been negotiating for the past two or three weeks for the purchase of old Northrop Lumber & Exporting Co., property on the river front, in the block surrounded by Surry, Queen and Castle streets and the Cape Fear river, on the west, but it was announced yesterday that the deal has not yet been consummated. However, it is believed that the deal will be put through. Attorneys have been engaged for several days examining title to the property. Mr. Raymond, an official of the Clyde Line, was in Wilmington two weeks ago at which time the negotiations for the property reached a stage that t could almost be sad to have been closed, according to street talk at the time, though when questoned by a Star representative Mr. Raymond said he did not have anything to give out until later.

The property has a frontage of 396 feet on the river. The lease of the Clyde Line on its present depot at the foot of Grace street expires on October 1st and has been understood for some time that the lease would not be renewed.

LAY CORNERSTONE

Interesting and Impressive Exercises at Fifth and Wooster

The laying of the cornerstone of the handsome new church being erected by the Southside Baptist church at corner of Fifth and Wooster streets. this afternoon at 4 o'clock, is an incident of more than passing interest to the churches of the city, especially the members of Southside congregation. An interesting programme of exercises has been arranged and doubtless several hundred people will be present.

The programme as announced follows:

Doxology by the choir.
Bible reading and prayer, Rev Dr. A. D. McClure.
Address, "The Building, Its Beginning," Rev. W. G. Hall.
Song, "I Love Thy Kingdom, Lord."
Address, "The Sacrifice Involved," Rev. Dr. J. H. Foster.
Address. "The New Vantage Ground," Rev. J. A. Sullivan.
Laying of cornerstone by Mr. J. S. Canady, chairman of building committee.
Song, "All Hail the Power of Jesus Name."
Benediction, by the pastor, Rev. W. G. Hall.

Automobilists to be Tried

Before Justice Harriss this afternoon ten automobilists will be given hearing on a charge of speeding through Winter Park Gardens at a rate in excess of that allowed by law. The arrests came as the result of complaint made by Mr. G. C. McIntire, of Winter Park, to the sheriff and County Commissioners. He furnished a list of numbers of the cars alleged to have been running at an excessive speed and by comparing these numbers with the records in the office of the Clerk of Superior Court Deputy Sheriff Kelly, who made the affidavit, got the following names: J. J. Hopkins, F. W. Davis, Levi Merritt, R. A. Parsley, E. M. Beardsley, B. F. Keith, J. L. Bolton, J. W. Murchison, C. L. Dickinson, Mr. Hall, son of Dr. Wright Hall.

WITH THE MOVIES

The Academy of Music makes another big and notable moving picture offering. Commencing today and continuing for the rest of the week it will present films taken of the Confederate reunion in Chattanooga, held a few weeks ago. Manager Marx Nathan had a chance to secure these films and feeling that they would be especially interesting to the people of Wilmington, he closed a contract for them. The films were taken directly on the scene, of course, and it required a big sum of money to manufacture them. The pictures are clear and graphic and all the notable Confederate chieftains who attended the reunion, together with the tent city, the meeting of old comrades, the big reunion meetings and the monster parade will be seen. The parade will be a magnificent spectacle. The Confederate soldiers should not miss it, and the children will find in it a subject both of inspiration and of education. A daily matinee will be given, the first this afternoon at 3:30 o'clock. The night performances will start at 7:30 o'clock and continue to 11. The admission will be 10 cents for children and 15 cents for adults.

At the Grand.

The cool and handsome Grand Theatre continues to comfort and delight big audiences both day and night. Today will bring forth another superb show, of both films and music, while the price of admission is only 5 cents. Today's show will be especially strong for the dramatic, though there will be plenty of fun to tickle every one. A great Western bill is on today in "The Paymaster." It is the tale of desperate men who attempt to rob a mining company and in order to make the wife of the paymaster show them the hiding place of the money threaten to give her child a piece of bread, upon which has been spread "rough on rats." There is another gripping Western photoplay to be presented in "The Veil of Sleep". It is something entirely different. Yet another film of fine nature will be offered today.

The Bijou's Bill.

The home of cool breezes, the magnetic place of rare entertainment, the popular Bijou Theatre will today offor another glittering collection of gems in both the film and music lines, with the price of 5 cents doing duty at the ticket office, both afternoon and night. Today's show will be a thriller. The leader is a great war story, Kalem's "The War Correspondent," the scenes opening in a big city, with a newspaper office as the center of attraction, and shifting to the carnage of a battlefield. Another thriller is offered in "Bull Fighting in France." The pictures were taken by Pathe directly on the scene. "The Sea Maiden" is the Vitagraph's superb offering, telling of the stock market and of thrilling adventures on sea and in foreign lands. There is a fourth photoplay of much interest in "The Forest of Cochin-China."

Rev. G. W. McClanahan Accepts

Rev. G. W. McClanahan, who was recently extended a call to the pastorate of St. Matthew's Lutheran church, which he has served as supply pastor for the past several months, a few days ago notified the congregation of his acceptance of the call. He is expected to return today from points in Texas, where he has been spending the past few weeks, and will begin his regular pastorate on Sunday.

PHILS OPEN WITH VICTORY

Defeated Brooklyn Dodgers in First Engagement—Giants and Braves Split Two—Reds and Pirates in Winning.

The Phillies returned home yesterday and celebrated the occasion in a fitting manner for the Quakertown fans by annexing a victory in the opening game with the Brooklyn Street Car Dodgers by an 11 to 8 score. The game seesawed between the two for eight innings, the locals first leading and then the visitors, and it was literally anybody's game until in the eighth inning the Superbas piled up a row of five misplays, enabling the Dodgers to put three tallies across and win.

The New York Giants and the Boston Braves divided honors in a double-header, one game of which was a postponed affair. The locals won the first game easily with Al Demaree, staff cartoonist on the New York American, doing mound duty, and Rube Marquard suffered another defeat in the second session of the afternoon. The Beaneaters before winning yesterday, had dropped six straight games.

Bonehead fielding combined with effetive swatting at crucial moments, enabled the Cincinnati Reds to walk off with yesterday's game with the Chicago Cubs.

The Pittsburg Pirates opened up in St. Louis yesterday, taking the initial game of the series by an 8 to 0 shutout. The game was a pitchers' battle between O'Toole and Coleman for nine innings, but in the 10th Pittsburg scored eight runs on six hits, three passes, three stolen bases and a sicrifice fly, St. Louis using three twirlers in that inning.

Phillies Won Again.

Philadelphia, June 25.—Philadelphia and Brooklyn took turns in having batting bees and in leading in today's game, which was finally decided in the eighth inning when the visitors piled up four errors, the locals winning by 11 to 8. Each club used three pitchers.

Giants and Braves Split Up.

New York, June 25.—New York and Boston split the double-header here today. The Giants won the first game easily 5 to 1, while the second was in doubt to the last, Boston winning 4 to 3. Boston had lost six straight before landing this victory.

Boston .....000 000 001—1 5 2
New York .....000 103 10x—5 9 0

Rudolph and Whaling and Brown; Demaree and Meyers and Hartley; time 1:05; umpires Quigley and Orth.

New York .....030 000 000—3 6 1

Perdue and Brown; Marquard and Meyers; time 1:55; umpires Klem and Orth.

Bonehead Work at Cincy.

Cincinnati, June 25.—Cincinnati, hitting Cheney and Reulbach hard, won from Chicago today 12 to 4. Both teams used three pitchers. In the eighth, with Groh on second, Clark popped an easy fly which fell safe in the pitcher's box with three players within a foot of it, and Groh scored while Clark took second and was credited with a double.

Chicago .....001 110 010— 4 10 2
Cincinnati .....300 061 11x—12 13 3

Cheney, Reulbach, Richie and Bresnahan; Packard, Benton, Suggs and Clark and Blackburn; time 2:10; umpires Brennan and Eason.

Pirates Open With Victory.

St. Louis, June 25.—Pittsburg opened its series with St. Louis today with a 10-inning victory, 9 to 1. For nine innings the game was a pitchers' battle, but in the first half of the 10th, Pittsburg scored eight runs on six hits, three passes, three stolen bases and a sacrifice fly. St. Louis used three pitchers in that inning. Viox, hit in the face by a batted ball in the 10th, retired.

TRAVELING MAN ILL

Mr. Irving Stern Had Serious Attack of the Heart Yesterday

Mr. Irving Stern, a traveling salesman from New York, who came here the 22nd, and who has been unwell since his arrival, had an attack of the heart yesterday at the Orton Hotel and for awhile it was feared that he would die in spite of everything that could be done for him. Dr. Wood attended him and as soon as it was possible to move him, he was sent to the James Walker Memorial Hospital, where, it was reported yesterday afternoon, he remained in about the same precarious condition. He attempted to visit his customers yesterday morning, but could not stand the exertion and on his return to the hotel collapsed, and Dr. Wood, who had been visited by Mr. Stern previously, was hastilly called.

Treating Streets With Oil.

Mr. John C. McAlister, superintendent of streets, is making fine progress in treating macadam streets of the city with road oil recently purhased for that purpose by Councilman Merritt, in charge of the Department of Streets and Wharves. Red Cross street, from Oakdale cemetery to Fourth street, has been treated with a coating of the oil and Mr. McAlister will next give Walnut street a treatment. It is hoped to treat every macadam street in the city.

It is true that women more frequently suffer from kidney trouble than men. It is also true they suffer more intensely, owing to their more sensitive organism. Katherine L. Norton, New Bedford, Mass., says: "I had a terrible pain across my back, with a burning and scalding feeling. I took Foley Kidney Pills as advised, with results certain and sure. The pain and burning feeling left me, I felt toned up and invigorated. I am glad to recommend Foley Kidney Pills." They are tonic in action, quick in results.—Robt. R. Bellamy.

ROW WITH CONDUCTOR.

Texas Congressman Fights Street Railway Employe.

Washington, June 25.—Representative Martin Dies, of Texas, had a row with a street car conductor last night. The conductor came out of the fracas with a black eye, the car came out with a smash and Mr. Dies came out unscathed, but with temper ruffled. The railway company officials said today they were investigating and were inclined to support the conductor.

It is said that Mr. Dies found it difficult to open a window and punched the pane out of the sash with one swipe of his elbow. When the conductor remonstrated, the Congressman virtually repeated the movement but on the conductor's eye with his fist.

Obstinate Acne Quickly Yields

Fine Remedy that Clears Skin of Pimples on Cheeks, Temples, Sides of Nose and Chin.

Let S. S. S. Purify Your Blood. Insects can't Harm.

Acne attacks the glandular structure of the skin, more particularly those tiny glands that secrete fat.

And it is here that S. S. S., the famous blood purifier is most active in its influence.

There is one ingredient in S. S. S., the purpose of which it is to stimulate the cells in the tissues that they select from the blood the nutriment that makes new skin and thus eliminates all irritants, acids and parasites that inflame the glands. There is a natural tendency of the fine network of blood vessels in the skin to throw off impurities, but where a persistent inflammation process has invaded the skin, the natural repair work of the blood is interfered with. It requires the stimulating activity of S. S. S. to overcome such morbid conditions. If you have been troubled with acne, do not despair of a cure.

You can get S. S. S. in any drug store, but insist upon having it. Take no chance with a substitute. And if your blood condition is such that you would like to consult a specialist freely, address the Medical Dept., The Swift Specific Company, 181 Swif. Bldg., Atlanta, Ga.

BLEASE REQUISITION SLOW

Governor Craig Will Order Release of South Carolinian This Morning Unless Papers Arrive—Thief Pardoned.

(Special Star Telegram.)

Raleigh, N. C., June 25.—L. H. Smith is still being held in Gastonia for the South Carolina authorities, who say he is wanted in Chesterfield county for embezzlement, but it is stated at the office of Governor Craig that unless the requisition from South Carolina is presented in the meantime he will be released Thursday morning.

On Saturday Governor Blease was notified that if his requisition was not presented here by Monday morning Smith would be released. The reply to this was that the requisition would certainly be here by Tuesday. It has not shown up. Counsel for Smith claim that the proceeding against their client is in reality an effort to collect a debt, and there is no requisition effective for such a prosecution.

Governor Crag grants a pardon for Lyle Morris, who is serving a five-year sentence in Haywood county for horse stealing, for which he was sentenced in 1910. The prisoner was only 17 years old at the time. The trial judge advises the Governor that he gave him the minimum sentence and would have given him much less if it had been possible. The horse was recovered and there were a number of circumstances in favor of the accused.

Secretary of State J. Bryan Grimes assures North Carolina Confederate veterans that there are the most ample preparations at Gettysburg for the accommodation of the veterans who make the trip.

The special North Carolina Commission is preparing ample North Carolina headquarters on the battlefield, at which information will be available and every possible accommodation provided. The Pennsylvania hosts have set aside the section of the great camp from 33rd to 36th streets for the tents to be occupied by the North Carolinians. All veterans are expected to remain on their trains until they reach the battle ground station and not get off the trains at the town of Gettysburg. Tar Heels to the number of 3,000 are expected to go to the reunion.

Charters are issued for the Bogue Sound Lumber Co., of Morehead City, capital $10,000 authorized and $3,000 subscribed by G. A. Simmons, A. T. DR. NEBITT LECTURES.

Speaks to Burgaw People on Sanitation and Public Health.

(Special Star Correspondence.)

Burgaw, N. C., June 25.—Dr. Chas. T. Nesbitt, superintendent of health in New Hanover county, last night addressed a large number of Burgaw citizens at the Court House on the subject of sanitation and public health. His lecture was heard with the closest attention and interest and was much enjoyed. It will very likely produce results in making Burgaw a cleaner and more healthful place.

The faculty of Burgaw High School for the coming year will be as follows: C. O. Fisher, principal; Miss Iver Ellis, assistant; Miss Minnie Coley, vocal and instrumental music; sixth and seventh grades, Miss Douglass Hand; fourth and fifth grades, Miss Ethel Goldston; second and third grades, Miss Mary Lou McCullen; first grade, Miss Blanche Paddison.

A lawn party was given last evening to Miss Mattie Paddison and the visiting young ladies, these being Misses Lila Whitehead, of Scotland Neck; Mary Barnwell, of Thomasville, N. C.; Annie Barnes, of Reidsville, and Lina Ivey, of Lenoir. The chaperones were Mr. and Mrs. H. Overstreet, Mr. and Mrs. W. O. Singletary, Dr. and Mrs. R. H. Bradford. The grounds were beautifull illuminated with lanterns and presented a bewitching scene. The refreshments were cream and cake. Games were played and a delightful evening spent.

CUPID FINALLY WON OUT

Father of Young Lady Had Groom-to-Be Arrested But Relented

(Special Star Correspondence.)

Kinston, June 24.—Ernest Johnson and Parrott Best, two Lenoir county young men, were overtaken on a road near LaGrange and arrested by a deputy sheriff, who followed them in an automobile, on a charge of perjury in swearing falsely to the age of pretty Julia Grant, Johnson's fiance. Miss Grant's father heard of the intention of his daughter, who was under age, and young Johnson to be married, and telephoned to the register of deeds here, who informed him that license had been issued. The intended groom and Best had told the register the girl was 18, and that official put a sheriff's officer on their trail. Later Mr. Grant relented and gave his consent to the wedding, and Solicitor Shaw consented to quash the indictment against the young men in Superior Court.

DOZEN "TIGERS" INDICTED.

Large Per Cent. of Hookerton's Population Arrested.

(Special Star Telegram.)

Kinston, N. C., June 25.—At Hookerton, in Greene county, a town of barely 350 people, 13 alleged sellers of whiskey were arrested yesterday by county officers. All were colored.

After being rounded up, the men were taken to Snow Hill and tried before a magistrate, with the result that 12 were held to appear in Superior Court. Four were released on bail and the other eight are in jail. The retailers were apprehended through efforts of colored amateur detectives. A white sleuth who had been at work in the vicinity of Hookerton, was suspected, and open threats made against him by the negroes. He left and took up residence at Snow Hill, sending an agent of their own color to secure evidence against the suspected bootleggers.

TO BRIDGE THE NEUSE.

Lenoir County to Build Steel Structure Near LaGrange—Cyclone.

(Special Star Correspondence.)

Kinston, N. C., June 25.—Plans submitted by the Owego Bridge Company, of New York, have been adopted by the Lenoir county commissioners for the construction of a modern steel bridge across Neuse river at a point near LaGrance, but every bid for the contract submitted was rejected as naming an excessive figure. New bids will be had. The bridge will probably cost in the neighborhood of $10,000, will be several hundred feet long, and will connect two townships.

Leon Jones, a farmer of this county, was arrested today for what is alleged to have been a brutal attack upon a 16-year-old boy. The charge was made by A. O. Hight that Jones threw Herbert Hight, his son, to the ground and with his knee in the lad's chest choked him unmercifully, leaving him in a bad condition. The parent told the sheriff that a near collision between the victim, who was on a bicycle, and a small child of Jones, which was averted by young Hight leaping from the bicycle, was the cause of the attack. The principals are well known and the case has attracted much attention.

A cyclone of small proportions caused much anxiety and a little damage about eight miles of the city late Monday evening. At the farm of Mr. Frank Hill, of this city, the terrific wind blew down several staunch oak trees, propelled an automobile 30 yards, tore windows out of the houses on the plantation, and it was expected by the inmates that the houses themselves would go. Damage was confined to young fruit trees and tobacco principally. Those who experienced the gale say it did not last longer than five or ten minutes.

J. I. Brown, first lieutenant, was chosen at an election by the enlisted men of Company B, Second North Carolina Infantry, stationed here, to be the new company commander to succeed Capt. A. L. C. Hill, recently appointed to the regimental staff. J. O. H. Taylor, second lieutenant, will be promoted to first lieutenant, and W. A. Faulkner, a sergeant, to second lieutenant. This is the first election held by Company B in several years.

ROBESON SCHOOL FIGURES

Growth of Public Education in State's Biggest County

(Special Star Correspondence.)

Lumberton, N. C., June 24.—Superintendent J. R. Pool, of the Robeson county schools, gives your correspondent information that will be of interest to the friends of education. There is to be erected this year four school buildings in Robeson county, as follows: Red Springs, to cost $15,000; Philadelphus, $15,000; Lumber Bridge, $12,000; St. Paul's, $15,000, all of which will be equipped with the best of furnishings.

Superintendent Pool also furnishes the following statistics for 1912-13, from the rural census: There are 6,088 white children, 5,858 were enrolled, and the average attendance was 3,134. Only about 200 illiterates were reported between the ages of 12 and 21. The small school attendance is accounted for by the fact that this is a great cotton county and parents have to keep their children at home late in the Fall to gather the staple, because labor is scarce.

July 1st Superintendent Pool will make a report on the value of school property as being $101,665, against $23,094 in 1913, an increase of $78,571 in 10 years; and school funds are about $75,000 a year.

The Smith planing mill at Lumber Bridge was struck by lightning last night and destroyed by fire, the loss being $1,000 or $1,500, with no insurance.

Fred Watkins, who is well known to Star readers as the boy who, with Frank Mills, was arrested in Savannah and sent home, is in jail again at Lumberton, charged with larceny of a gold ring, fountain pen and, supposedly, a small savings bank which was missing and cannot be found, from the telephone operator, Miss Meares, of this city. Upon preliminary hearing he submitted and on failure to give bond in the sum of $100 was put in jail. He will be tried at the coming term of court which opens June 30th. Watkins is a Whiteville boy.

FACE COVERED WITH PIMPLES

Suffered Three Years. Used Resinol. Now Not A Pimple To Be Seen.

Philadelphia, Pa., Oct. 27, 1912. "I had been troubled for the past three years with pimples which completely covered my face and neck. The pimples would come out, fester up and cause me to pick at them, feeling very uncomfortable. I tried most all kinds of facial creams, but with no effect. I tried a sample of Resinol Soap and Ointment and noticed instant relief. I bought Resinol Soap and Resinol Ointment, and began the treatment. After using two jars of Resinol Ointment and Resinol Soap, there was not a pimple to be seen, and now my face is as smooth as if there was never a pimple on it." (Signed) Albert Greenburg, 4167 Frankford Ave.

For eighteen years Resinol has been a favorite doctor's prescription and household remedy for itching troubles, skin eruptions, dandruff, red, rough faces and hands, sores, piles, etc. Stops itching instantly. Sold by all druggists, Resinol Soap, 25c., Ointment, 50c. and $1.00, but you can try them without cost—just write for liberal samples to Dept. 18-M, Resinol Chemical Co., Baltimore, Md.

A NORTH CAROLINA PORT.

A large portion of North Carolina is connected directly with the port of Wilmington over straight rail routes. Those cities which are on lines running to this ocean gateway certainly ought to get some of the benefits of being connected with ocean transportation. Charlotte, for instance, is on a straight line running out from the port of Wilmington. The Seaboard Air Line runs from Wilmington to Rutherfordton, and along it are many important manufacturing towns that should get the benefit of the ocean outlet at Wilmington and Southport. That was why the railroads were built to the ports and it was the aim of the original projectors that their respective communities should have the advantage from reaching an ocean outlet.

We have always contended that if proper use were made of the port by the railroads it would result in a mutual development that would amply repay for co-operation in the matter of transportation. That has been amply demonstrated at Wilmington in the past few years in the handling of both exports and imports through the port of Wilmington. The port handles annually from $28,000,000 to $31,000,000 of exports, and from $6,000,000 to $10,000,000 of imports, and that traffic furnishes an immense business for the railroads. On the other hand, the railroads bring exports to the ships and the ships bring imports to the railroads. The increased manufacturing output as a consequence of it, also furnishes traffic for the railroads.

As commerce grows, it necessarily follows that the railroads will share in the increase. Every ship that crosses the ocean either way makes business for the railroads, and in no sense is there any competition between water and rail in such business. Hence, the railroads ought to join the people in making a great North Carolina port at Wilmington. There may be more or less competition in coastwise traffic, but even that will furnish more business for the railroads. If water brings it here the railroads have to haul it out.

The press of North Carolina can assist immensely towards making a great port for North Carolina, and they are doing that now in discussing the rate question in connection with the proposed independent steamship line between New York and Wilmington. In contributing another editorial on that subject the Charlotte Observer says:

"Charleston is about to seek relief from port discrimination against her by the railroads. Wilmington now has before the State Corporation Commission a complaint which shows that cross-ties are taken by water from Jacksonville, Fla., to New York much cheaper than from Wilmington. The Star thinks that the Wilmington Chamber of Commerce should make a close study of port rates as well as railroad rates. It realizes that there may be discrimination against a port not only by either the railroads or the water lines, but by the two classes of carriers combined. In this general connection we find the Kinston Free Press making some pertinent points. It notes the virtual absence, latterly, of real competition between nominally competing railroad and steamship lines. There is still competition in service, but none in rates, any more than among the railroads themselves. Water lines were better prepared to give the public cheap and acceptable service in many respects, but the railroads had by far the longer purse. Besides, they could make their patrons who had no water lines pay the expense of cutting the water lines' throats. 'The result,' observes The Free Press, 'was that water companies were driven out of business or forced to an 'understanding' that left the public's best interests in the lurch. But all this has been changed by recent act of Congress. Federal authority will not allow railroads to murder water competition in any such way.' The idea is that investments in the proposed million-dollar boat line out of Wilmington can be made with assurances which did not exist before. It is all true. Railroad discrimination against any port or its territory involves water discrimination as well. The railroads force the water lines to fall in with the discrimination practiced by them. At least they did so. They now have the existing lines reduced to servitude. But a new water line need not accept any such fate, and if it were as sincerely independent as the projected line out of Wilmington to New York would be it might bring about some excellent results."

All of this indicates that water competition is as necessary as rail transportation, and that in both lies relief for North Carolina, so far as rate discrmination is concerned. There must necessarily be competition, or government regulation of rates both as a protection to the public and the railroads in cases where competition perhaps might reach a ruinous point for the roads. After all, the question of facilities for transportation is as important as rates, and it is necessary for the earnings of ships and railroads to be sufficient to enable them to furnish the facilities. If they did not do so, the public would be the sufferer, both as to freight traffic and travel.

This question is up for settlement, and whatever way it is setled, it emphasizes the need of a great ocean gateway for North Carolina. Charlotte is an important manufacturing city and it is impossible that she shall not sooner or later be benefitted by her straight rail connection with deep water at Wilmington and Southport. Charlotte and other manufacturing towns in the Piedmont of the Carolinas and Georgia may desire to export and import through Wilmington and Southport, and we believe they will begin to do it as soon as the Panama Canal is completed and ship service can utilize this ocean gateway. We believe the railroads will help them to do it.

DOWNTOWN PARKS

The action of the City Council, mentioned in the local columns of this morning's Star, no doubt will result in the city's securing the postoffice lawn for the purpose of converting it into a park and playground for children. The Secretary of the Treasury states in a letter that when government property is turned over for other public uses, it must be done with the understanding that it will be abandoned when the government may need it. He strongly intimates that he would grant permission for the use of the postoffice lawn for playground purposes, and will give consideration to the request if Congressman Godwin if petitioned to make application for the lawn under the government's conditions.

A petition from the City Council or citizens will be promptly sent to Mr. Godwin at Washington, and as the city authorities are perfectly willing for the government to revoke a lease of the property at any time, it is safe to predict that Mr. Godwin will succeed in getting the government's consent. The lawn can be converted into a beauty spot that will give Wilmington a downtown park that will make the business section exceedingly attractive.

We are satisfied the city is going to be granted use of the lawn, and if it is done right away, preparations can be made for planting trees this Fall, while plans for laying out the grounds can ge arranged at once. While the City Council is making a playground of the postoffice grounds, it can also make another on the City Hall grounds. Necessarily, that would call for beauty spots and playgrounds all over the city, a thing altogether desirable from any point of view. It will be the beginning of making Wilmington a city beautiful.

Many people no doubt will be glad to contribute rare plants and flowers, and such things as will contribute to the happiness of children. A handsome two-story pavilion can be erected in the center of the park. When the city is able to do so, The Star hopes to see these cosy playgrounds in all quarters in Wilmington.

BUTTER AND CHEESE DISTRIBUTION HERE

Just as Wilmington has become a great distributing point for various manufactures and commodities, so it is to become a distributor for butter and cheese. The whole question of distribution is wrapped up in warehouses and transportation facilities. The Star has often urged that ample terminal warehouse facilities on the water front would increase the commerce of the port and make it a great distributing point. That is coming about rapidly because of several fine water terminal warehouses on the water front.

Now comes the cold storage warehouse to make Wilmington a distributing point for perishable commodities. The cold storage facilities here have made that possible. Without that it would be impossible. Without ample cold storage, fresh beef, mutton and pork could never be brought to Wilmington, but before that becomes necessary we hope eastern North Carolina will supply all our meat and dairy needs.

In yesterday's Star it was announced that the Independent Ice Company's cold storage has become the depository of Elgin creamery butter and Wisconsin creamery chees, the first storage of these products amounting to a value of $15,000. That is only a beginning, however, for that supply won't last very long, as the probability is that butter and cheese will be distributed from the Wilmington cold storage to many points in North Carolina.

We mention this to again emphasize the importance of facilities in handling commerce or doing business as a port and commercial center. Let us remember that if Wilmington has the facilities she is bound to do business as a commercial, jobbing, business and distributing center. Facilities are everything, even to getting across the rivers and having good roads for economical hauling.

A magazine writer estimates that Col. Roosevelt's wealth foots up a value of $200,000. Having become a journalist by profession, that will be about the size of the Colonel's fortune when he retires from business. He gets $1 a word for his magazine articles, but no doubt the publishers want only short articles couched in a few such valuable words.

CURRENT COMMENT.

The fact that the Reading Railroad is paying a 24 per cent dividend on its common stock will surely make the "ultimate consumer" believe there is something decidedly wrong some place. A business that pays 24 per cent on watered common stock is one that can sit in the same pew with the Standard Oil Trust. But the people don't want to pay for the pew, says the Lancaster Examiner.—Chester (Pa.) Republican.

Says the Wilmington Star: "The housing problem continues to be the greatest of Wilmington's present day troubles. A Philadelphia family which wanted to move to Wilmington a year ago is not able to get a house. A house (not a shack) is wanted." This is a serious problem in many growing cities. Here in Winston-Salem there are too few modern houses for rent. More are constantly being built but the demand seems to keep well ahead of the supply.—Winston-Salem Sentinel.

Speaking of the Webb law, the New York World says: "What was wanted in this case was that the United States government should enforce prohibition on behalf of the States which had voted it but could not make it effective. The new law, therefore, leaves the matter about where it was in the first place." Congress indeed had no intention of really aiding the States to enforce their prohibition laws. If it had a penalty for violation of the Webb statute it would have been prescribed. The passage of the law was a meaningless sop to the prohibition element.—Augusta Chronicle.

The address of Mr. A. J. Maxwell, chief clerk of the North Carolina Corporation Commission, delivered at the meeting of the North Carolina Merchants' Association, in which he advocated steamship lines from the North to Wilmington, to end freight rate discriminations against North Carolina, has made a great impression on the people of the State. The speech is an able presentation of one phase of the livest question before the State at this time. The intimate knowledge of the freight conditions evidenced by it, demonstrates the fact that Mr. Maxwell has been a student of the questions coming before the Corporation Commission. It discloses what we have long known, that Mr. Maxwell is a man of force and ability. The fact that Mr. Maxwell is chief clerk of the Corporation Commission, and that what he says in accord with the public utterances of Chairman Travis, gives basis for the generally accepted belief that Mr. Maxwell has expressed in his address a position which is concurred in by the Corporation Commission on the railroad rate question. We believe that water competition ought to be re-established. There is no reason why Wilmington should not be developed into a great port—and it will be, unless water transportation is throttled in the interest of railroads.—Raleigh News and Observer.

WOMAN ESCAPES OPERATION

By Timely Use of Lydia E. Pinkham's Vegetable Compound.

Here is her own statement.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Cary, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

HARMONY MARKED SESSION

Not a Discordant Note Sounded at Meeting of Council Yesterday—Usual Routine Matters Up for Consideration

Harmony, the one word in the dictionary that has been persistently overlooked by the present city officials, marked the regular weekly meeting of the City Council yesterday morning. It was as unexpected as it was marvelous—to the people outside the Council. Evidently since the last meeting members of Council have done some "private conferring" and agreed to make less noise and do more work, for the immediate future at least.

Unanimity of opinion prevailed on practically every matter that came up; nothing that was subject of dispute arose; not a discordant note was sounded throughout the nearly two hours the body was in session, not even did the Councilman Wood's declaration that he would renew his efforts for deep wells in the Fall bring forth as much as a semblance of contrary views on the proposition. Everyone was apparently at ease throughout the entire meeting and not once was an empending clash in evidence. There was no renewal of the effort to get adopted a certain ordinance offered at the last regular meeting calling in all special officers' badges and providing that all appointments of special officers should be made solely by the Councilman in charge of the Department of Public Safety. This was the principal bone of contention last week. When the ordinance was introduced and after a hot discussion Councilman Merritt moved that action be deferred for a week and his motion prevailed. The matter was not even mentioned yesterday, so the presumption is that no further effort will be made to prevent Mayor Moore from appointing special officers when he deems it expedient to do so, and, further, he is not required to report to any one the names of the officers so appointed unless he sees fit to do so.

Bond of the city engineer in the sum of $1,000, approved by the city attorney as to form and executive, was received and accepted. Mr. L. W. Moore, chairman of the building committee in charge of the Odd Fellows' building, corner Third and Princess streets, in a communication, stated that the water rate charged the Odd Fellows was 10 cents per cubic foot up to 2,500 cubic feet and all in excess of that amount was charged for at the rate of 20 cents per cubic foot. He thought the same rate ought to apply to the excess. Members of Council seemed to be of the same opinion, but the communication was referred to the Water and Sewerage Department, to be brought up later, it being understood that the idea is to make a number of changes some time soon.

No action was taken on a request of Mr. Casteen to be relieved of payment of interest on back taxes since 1884. The bond of Mr. W. L. DeRosset for $500 for the Macomber's ditch improvement was submitted and approved by the city attorney. No action was taken as the contract had not been passed upon by the city attorney. He was given the document yesterday and action will be taken at the next meeting.

Mr. B. Frank Brittain, Jr., appeared before the Council and asked that the ordinance requiring the sheds over sidewalks in front of stores be torn down, be not enforced on "the Hill" as it would work a hardship on the small merchants who have spent $100 or more in erecting the sheds not only as protection to the foodstuffs displayed in the doorways but afford the public shelter from rain or rays of the sun. He thought it well to put up the improved awnings in the downtown district, but the ordinary sheds, he said, would answer the purpose in the outlying districts. Mr. Parker, who conducts a store at Front and Wright streets, also addressed the body. He said that the building occupied by him is not his own and only about four months ago he spent $100 to have the shed erected over the sidewalk. By unanimous vote of Council, the chief of police was instructed to ignore the ordinance as to the merchants in outlying districts, until such time as the Council could go into the matter more fully.

Councilman Chadwick, in charge of the Department of Accounts and Finance, recommended, in his report on the question of back taxes, that all those settling back taxes any time within six months from yesterday, be charged a flat rate of only 10 per cent, after the expiration of that period the old rule of six per cent per annum to prevail. He said that there is about $50,000 due the city in back taxes and he hoped through this inducement to collect a large portion of this amount. The recommendation of Councilman Chadwick was adopted.

Chief Schnibben, of the fire department, asked for and was granted permission to run the races of the State Firemen's Tournament in August on west side of Fifth street, from Princess to Red Cross, and to erect a grandstand on the plaza for about two-thirds the distance between Grace and Walnut, on Fifth.

Councilman Merritt, in charge of the Department of Streets and Wharves, asked authority to have a fence built around the city property in the northern part of the city. The request was granted.

Councilman Merritt reported that he had taken up with Atlantic Coast Line officials the question of putting in a side track to the city property and some action would likely be taken within a few days.

Upon recommendation of Mr. F. F. Pillet, city engineer, the salary of Mr. David Struthers, assistant engineer, was increased from $85 to $100 a month and that of Mr. A. L. Howard, a rodman, from $40 to $60.

The bill of Mr. Geo. F. Catlett, chemist at the waterworks plant, for $15 for analyzing six samples of concoctions furnished him by the police department, was held up for a few days pending conference of Mayor Moore with Dr. Nesbitt as to what work is required of Mr. Catlett on the stated salary of $900 or $1,000 a year which he is to receive through the Board of Health. In suggesting that the matter be submitted to conference, Councilman Merritt said, "Leave it to the Mayor to take up with Dr. Nesbitt, who is the other part of the Board of Health," in which the other members gave concurrence, from the way they received the suggestion.

Mayor Moore called attention of the Council to the fact that the city in depositing with the Southern National Bank its proportion of the expense of the Health Department for June deposited its pro rata for the maintenance of the incinerator, as provided in the budget, and that as the incinerator is not yet in operation and won't be possibly for yet another month, the city should get a refund on this item, amounting to $180 for June. Councilman Merritt suggested that the city had still more coming back to it, as the appropriation was made on a basis of two physician assistants to the superintendent at $1,500 a year each and the Board of Health had not employed but one for June. Both matters were left with Mayor Moore to take up with the Board of Health.

Mr. J. A. Springer again appeared before the Council and inquired if the body ever intended to improve Second street near the plant of the Independent Ice Company. The improvement of the block would cost about $1,500. Members of Council stated that they would be glad to make the improvement, but did not know where they would get the funds. Mr. Springer offered to lend the city the money. Members of Council said that it was not a question of getting the money, as the amount could be borrowed from the banks, but the point was that it would have to be paid back. Mr. Springer was asked if his company would pay one-half of the cost of the improvement and he replied that he was not prepared to say, but thought the city should stand the entire expense on account of the importance of the plant and the amount the company pays the city each year in taxes. No action was taken on the request.

Councilman Wood stated that a representative of a meter manufacturer was in the building and would be glad to demonstrate his meter to members of Council. It was decided to confer with him immediately after the meeting. Councilman Wood said that he was still of the opinion that he could save the city much money on a flat rate, but as the meter system is to be retained it will be necessary to purchase about 2,500 meters, though they will not all be required at one time, he said. Councilman Wood said that he noticed that there is an ordinance that provides that consumers of the city water supply outside the city limits shall pay double the rate charged consumers inside the city limits and he wanted to know if Council desired him to enforce this ordinance. All expressed themselves in favor of enforcing the ordinance and Councilman Wood was told that there is nothing left for him to do but put on the double rate, beginning with the next quarter, which starts July 1st.

Councilman Wood moved that Mr. G. T. Williamson, superintendent of fire alarm, be made inspector of electrical wiring as well, the position now held by Mr. Raymond Hunt, of the Tidewater Power Co., by appointment of the chief of the fire department, which authority is invested in him by the Council. It was stated that Mr. Williamson has his hands full with his present duties, so no action was taken on the matter of giving him the new office. Councilman Wood asked Fire Chief Schnibben, who is also building inspector, how much the position pays. The building inspector gets fees and Chief Schnibben told Councilman Wood that it paid him $250 to $300 a year. Councilman Wood said that he was told by Mr. Henry E. Bonitz, formerly building inspector, that the position pays $700 to $800 a year. Chief Schnibben said he had not been receiving any such sum.

License was granted S. R. Sellers to conduct a restaurant and soft drink stand at No. 1107 South Front street. A communication was received from John D. Bellamy & Son with reference to alleged obstructions on the sidewalks in several places in the city, but no action was taken.

Following the regular meeting the Council held an informal session for the purpose of hearing explained the merits of a water meter. Incidentally, the matter of removing the furniture and fixtures from the health department in the City Hall to the new quarters in the Court House was brought up. The Council left it with Mayor Moore to say what pieces of furniture should be left in the present quarters for the use of the Councilman of Public Safety, who is to take the room vacated for his office.

It was expected that the report of the special auditors who have just completed a thorough audit of the books of the city would be received yesterday, but for some reason the report is delayed for a few days. It may be that a special meeting is planned to hear the report.

STATE JEWELERS ADJOURN

Mr. J. T. Burke, of Wilmington, Elected Vice President—Next Convention Goes to Asheville. Resolutions.

The annual convention of the North Carolina Retail Jewelers' Association, which has been in session at the Seashore Hotel, Wrightsville Beach, the past two days, closed yesterday afternoon with the election of officers and the selection of Asheville as the next meeting place. After the meeting adjourned the visiting members were given an automobile ride over the city of Wilmington and its suburbs.

From every standpont the convention was a most profitable and enjoyable occasion, and the closing session, especially, was marked by a display of sincere fellowship that is seldom seen at such gatherings.

Following are the officers elected to serve for next year:

President—William G. Frasier, Durham, (re-elected.)

Vice President—J. T. Burke, Wilmington.

Secretary and Treasurer—W. B. Morris, Gastonia, (re-elected.)

Members of Executive Committee—William G. Frasier, Durham; J. T. Burke, Wilmington; R. L. Bowman, Wadesboro.

Delegates to the National Convention, which meets in Chicago, were elected as follows: F. M. Jolly, Raleigh, and W. B. Morris, Gastonia, with R. C. Bernau, Greensboro, and Rev. Fred N. Day, Winston-Salem, as alternates. There is talk that the North Carolina delegation will make an effort to have Mr. Jolly elected secretary of the National organization.

The morning session yesterday opened with an address by Mr. Robert F. Nattan, of the Jewelers' Circular, of New York, on the power of organization. He contrasted business conditions as they existed a few years ago with those of the present time, and showed that we are passing through a developmental period which is supplying interesting data to the student of political economy. Organization conducted in a lawful manner means order, education, progress and lack of it means disorder, friction, bickerings, almost savage commercial warfare, and, finally, commercial death. Friction wears out, and no man and no business can stand it with impunity.

The need of lawful organization was never more urgent than at the present time, but the utmost care must be used to resort to nothing that would be contrary to law. Just now there are serious business problems to consider. As business now exists it is necessary to have fixed prices for standard articles, and the retailer is in a better position to secure the cooperation of the courts than is the manufacturer. The fixed price is

NEW SUNDAY SELLING LAW

Drafted Along Same General Lines as Old Ordinance But is More Liberal—Talk That New Law Will be Tested.

A new Sunday selling law, to take the place of the one repealed two weeks ago on the ground that it was discriminatory and would not "stick" in the courts, was adopted by the City Council yesterday morning. The ordinance is drafted along the same general lines as the measure that was repealed, differing only in that it is more liberal than the old measure, stating specifically that cigar stores, soft drink establishments, confectioners, etc., may do business on Sunday, though the doors to all places, except drug stores, must be kept closed except during actual ingress or egress.

The ordinance was not contested, although there were present several members of the Ministerial Association and others interested in the observance of the Sabbath. It was intimated that the course the ministers are likely to pursue is to test the validity of the ordinance in the courts.

The ordinance as adopted follows:

"No person, firm or corporation shall publicly expose for sale or sell or offer for sale within the corporate limits of the city of Wilmington, on Sunday, any goods, wares or merchandise of any character, kind of description. And no store, shop, warehouse or other place of business in which goods, wares or merchandise are kept for sale shall keep open doors from 12 o'clock Saturday night until 12 o'clock Sunday night;

"Provided this section shall not apply to drug stores, or to hotels, boarding houses, restaurants or cafes furnishing meals and refreshments to actual guests where the same are regularly licensed and are not otherwise prohibited by ordinance from opening on Sunday;

"Nor shall this section apply to regularly licensed news stands for the sale of newspapers and periodicals, or licensed ice dealers carrying in stock and dealing in ice alone; nor to licensed dairies furnishing milk and cream; nor to regularly licensed bakeries for the sale of bakery products; nor to licensed livery stables or licensed garages for the hiring of vehicles; nor to the printing and publication of newspapers; nor to the vending of newspapers upon the streets and in public places in the city, by newsboys; nor to boot blacks on the street; nor to licensed boot black stands;

"Provided further that nothing herein contained shall be so construed as to prohibit ice cream dealers from selling or delivering ice cream; nor shall anything herein contained be so construed as to prohibit the sale of tobacco, cigars and cigarettes, or soft iced drinks and ice cream in places where such are usually sold on week days, provided that in places where tobacco, cigars and cigarettes or soft iced drinks and ice cream are sold on week days and there is run in connection therewith pool or billiard tables, or other games of amusement, or a confectionery or candy and fruit business, the pool or billiard tables and all paraphernalia connected therewith and all paraphernalia connected with other games of amusement or the confectionery or candy and fruit business shall be thoroughly and effectually screened from view and wire screen doors to the entrance of all places where tobacco, cigars and cigarettes and iced drinks and ice cream are sold, except drug stores shall be maintained and kept closed except during actual ingress or egress, nor shall the proprietor of such places allow or permit any loitering in such places.

"Any person, firm or corporation, agent or employe violating any provision of this section shall be subject to a fine of $10 for each and every such offense.

"All ordinances and clauses of ordinances in conflict with this ordinance are hereby repealed."

The new ordinance bore the signatures of Councilmen Merritt, Chadwick and Jones. When it had been read Mayor Moore asked City Attorney Bryan if the ordinance would stand the tests of the courts. Judge Bryan said in reply that he did not know, of course, what would be the decision of the courts, but that in his opinion the law is just as valid as the one that was repealed two weeks ago. Some lawyers had stated that the ordinance would "stick", others had expressed a contrary opinion. Frankly, he said, he has his doubts about any ordinance of the kind standing the tests of the courts as he considered that there was a serious question of the right of a municipal body to restrict or enlarge upon the State law governing Sunday observance. However, he had drafted the ordinance to meet the views of the Councilmen, as nearly as he could ascertain their views.

In voting in favor of the ordinance, Councilman Loughlin said that he agreed with Judge Bryan that there was a question of the right of the Council to make any Sunday law. For himself he was opposed to adoption of any Sunday law by the Council, however, he would vote for the measure. Councilman Wood voted in the negative, casting the only vote against it, because he considered that the State law took care of Sunday selling and the Council had no right to restrict or enlarge upon that law.

Before putting the question to a vote, Mayor Moore asked if any of the citizens present desired to have anything to say. None responded, so the ordinance was adopted, as stated.

While the ordinance is more liberal than the one formerly on the city statute books, it is doubtful if it will increase to any considerable extent Sunday selling, for it has long been so that one could buy almost anything desired on Sunday. The town had been pretty "wide open" on Sundays for several months preceding the repeal of the ordinance so far as the places down town are concerned. However, all places maintained good order and the fruit stands always kept their doors closed except during actual ingress or egress.

I. O. O. F. ORPHANS TONIGHT

Singing Class from Goldsboro at Boys' Brigade Armory

The singing class from the Odd Fellows' Orphans' Home at Goldsboro, gave a very enjoyable entertainment at Vineland Tuesday night and yesterday morning went to Southport where they were welcomed by a large and well pleased audience. Today they will be the guests of Letitia Rebekah Lodge at Carolina Beach and tonight they will appear at the Boys' Brigade armory, where they will give their entertainment. It is sincerely hoped that a large audience will greet them, as the programme is fine, and the money goes to the most worthy cause of supporting the little homeless ones in the institution at Goldsboro.

POSTOFFICE LAWN FOR PARK

Strong Probability That Government Will Allow City to Use the Property—First Formal Action by Council

The first formal action to secure permission of the United States government to use the attractive lawn behind the postoffice building, facing on both Second and Chesnut streets, was taken by the City Council yesterday morning in the adoption of a resolution requesting Congressman H. L. Godwin, who has already shown a lively interest in the matter, to make application, in the name of the City of Wilmington, to the Treasury Department for what is known as a license, revocable at the will of the department, to allow the municipality to improve the property and use it for a park and playground for children.

The improvement of this attractive lawn and its development into a park or recreation ground for children was first agitated in the local columns of The Star several weeks ago and the idea had the hearty endorsement of the new postmaster, Mr. H. McL. Green. Mr. J. E. Bunting saw a notice in the paper suggesting that the property be utilized for the purpose named and he very promptly sent the clipping to Congressman Godwin. The action of Council yesterday came as a direct result of the interest shown by Mr. Bunting. From the letter from the department, written to Congressman Godwin and read before the Council, it seems that application for license to use the property is almost equivalent to granting the license and it is confidently expected that in a short time the city will be in position to proceed with the improvement of the attractive green.

The following letter was read to the Council:

"Washington, D. C., June 12, 1913.

"Hon. H. L. Godwin, House of Representatives.

"Sir: This department has the honor to acknowledge the receipt, by reference from the Postoffice Department, under date of the 9th instant, of your communication, dated June 3rd, 1913, wherein you transmitted for consideration a printed slip petitioning Congress to permit the City of Wilmington, N. C., to use a portion of the postoffice lawn as a park and playground for the children until such time as the government has use for the property.

"In reply, you are informed that if the city authorities or some responsible organization will apply to the department for a license, revocable at the will of the Secretary of the Treasury, for the desired use of the site in question, due consideration will be given such application. If such license is given, however, it will be upon the printed conditions governing revocable licenses by the Treasury Department for the use of property of the United States under control, copy of which is enclosed for your information.

"Respectfully,
"SHERMAN ALLEN,
"Assistant Secretary."

On the margin is written the following by Congressman Godwin:

"J. E. B. This is in response to a newspaper clipping you sent me some days ago. I referred it to the department for attention."

Upon motion of Councilman Merritt, seconded by Councilman Wood, it was ordered that the city clerk and treasurer write Congressman Godwin requesting him to take the necessary steps to secure the use of the property for park purposes.

The "conditions governing revocable licenses by the Treasury Department for the use of property of the United States under its control," will be of interest and are as follows:

"1. That, as the Treasury Department is without authority to grant an easement in the United States property mentioned in the attached department letter, but is empowered, in proper cases, to give a license, revocable at the will of the Secretary of the Treasury, for the use of such United States property, the permission granted by said letter shall be considered to be, and treated as, only such revocable license, subject to the terms and conditions set forth here and (if any) in said attached department letter; and that said license shall be constituted by these printed conditions, said department letter and any other thing specified by said department letter as forming a part of said license.

"2. That said license shall not place or erect upon the property of the United States any structure whatever except such as are specifically enumerated in said attached department letter.

"3. That the location, construction, use, maintenance, repair and removal of all the things installed and work performed, etc., in connection with the revocable license by the Treasury Department to the license named in attached department letter shall be without expense to the United States and to the satisfaction of the Treasury Department.

"4. That said license shall so exercise the privilege granted by said license as to avoid marring the appearance, neatness, etc., of the United States property or interfering with the transaction of government business and the convenience of the public, or jeopardizing the safety of persons or property.

"5. That all things installed and work performed, etc., in connection with said revocable license shall be at all times subject to removal upon 30 days' written notice from said department so to do to the license named in the attached department letter.

"6. That any damage or injury caused to the property of the United States by the construction, existence, use, maintenance, repair, or removal of the things installed and work performed, etc., in connection with said license, shall be made good and the property of the United States restored to a condition satisfactory to the Treasury Department; all without expense to the United States.

"7. That said license shall cause to be stored where directed by the local representative of the Treasury Department (or otherwise disposed of as he may direct) any United States property which may be necessarily displaced by the exercise of the privilege granted by this license; all without expense to the United States.

"8. That two copies of said license shall be delivered to said licensee by the local representative of the Treasury Department in charge of the United States property for the use of which said license is given; that said licensee shall retain one of such copies and shall write upon the other copy and sign, its unqualified assent to the terms and conditions of said license and deliver such assent to said United States representative, who shall treat such signed assent as completing his authority to permit the things to be installed and the work performed, etc., necessary for the exercise of the privilege granted by said license, and promptly forward said signed assent to the supervising architect of the Treasury Department.

"9. That said licensee shall promptly comply with such further conditions and requirements as the Treasury Department may deem it expedient to prescribe hereafter in connection with the privilege granted by said license."

FUNERAL OF DR. THOMAS

Services Held From St. James' Episcopal Church Yesterday

A large concourse of sorrowing relatives and sympathizing friends attended the impressive funeral services at St. James' Episcopal church at 5:30 o'clock in honor of the memory of Dr. Pride Jones Thomas, whose sudden death early yesterday morning shocked and saddened the entire community. Death was due to heart disease. He was one of the most popular as well as capable physicians in the city and his passing is deeply mourned. Members of the New Hanover Medical Society, of which he was a member, and other friends gathered in large numbers in the church to pay a last sad tribute of respect to his memory. The impressive services were conducted by Rev. Dr. Wm. H. Milton, the rector. The many beautiful floral designs bore mute testimony to the high esteem in which Dr. Thomas was held by hundreds of friends in Wilmington.

Following the services at the church the body was tenderly borne to Oakdale cemetery, where it was laid to rest, members of the New Hanover Medical Society acting as an honorary escort. The pallbearers were: Dr. Rcbt. W. Crawford, Messrs. J. M. Stevenson, A. B. Skelding, O. P. Peck, A. S. Williams, J. F. Sears, Clayton Giles, Jr., and Thos. H. Wright.

FIVE MEN IN TROUBLE.

Before Justice Harriss Yesterday for Being Disorderly at Park.

A party of five men whose names are given as Ira Jones, Buck Harrelson, Harry Bond, Dock Rushing and Lindsay Williams, were before Justice Harriss yesterday charged with being disorderly at Greenfield Park Tuesday. Judgment was suspended for 12 months upon payment of the costs in the cases against Ira Jones, Buck Harrelson and Lindsay Williams. Harry Bond and Dock Rushing were each fined $25 and the costs. Rushing paid up and was released, but Bond was unable to raise the money and will have to work 30 days on the roads unless some kind friend comes to his rescue.

The warrants against these men were sworn out by Mr. W. B. Brice, one of the proprietors of the park, who states that the management will not tolerate disorder of any kind, and intend to prosecute vigorously anyone found guilty of violating the law in any manner. These men testified that they were drunk, and that had they been in their right minds they would not have caused the disorder.

Real Estate Transfers.

Deeds were filed for record yesterday as follows: Warden and Vestry of St. James' Parish to Robt. Strange, Wm. Calder and Clayton Giles, trustees, of the Protestant Episcopal church in the Diocese of East Carolina, for $10 and other considerations, property at Sixth and Queen streets for benefit of the Parish of the Good Shepherd; W. M. Cumming and wife to W. F. Moore and wife, for $300, lot on southwest corner of 13th and Queen streets, 34x100 feet in size.

To Regain a Healthy, Girlish Complexion

(From the Feminine World.)

If you would have a clear, fresh, girlish complexion, one ounce of ordinary mercolized wax will aid you in this direction more than shelves full of cosmetics. It produces a natural beauty. This wax, procurable at any drug store, completely absorbs a bad complexion, revealing the healthy young skin underneath. Its work is done so gradually, day by day, that no inconvenience is caused. The wax is applied at night, like cold cream, and removed in the morning with soap and water.

Another valuable rejuvenating treatment—this for wrinkles—is to bathe your face in a solution of powdered saxolite, 1 oz., dissolved in ½ pint witch hazel. This has a remarkable action in smoothing out the lines and "firming up" the loose tissue.

THE RECORDER'S COURT.

Joe Barnes, Colored, Gets Six Months on Roads—Appeals.

Because he is alleged to have sold a quart of cheap whiskey for $1.50 to a white man, Joe Barnes, colored, was yesterday given six months on the county roads by the Recorder. He appealed to the Superior Court and gave bond in the sum of $200. Ben Davis, colored, was mixed up in the affair, as it seems he asked Barnes to get the whiskey, though he did not take part in the sale further than to pass it over to the white man who bought it. Davis was given three months on the roads. After court he decided to appeal and will ask for the appeal this morning. In the meantime he is in jail.

An interesting point of law is involved in the case of Davis as he was used as a State's witness, and the question arises whether or not he could be made to incriminate himself in order to convict another man, and then be convicted himself on this same testimony. Recorder Furlong in pronouncing sentence yesterday stated that he did so because he was under the impression that Davis had not told the entire truth about the matter while on the stand.

Smiley Davis, colored, who used a stick on his father Tuesday night, it is said, was fined $10 and the costs.

Prayer for judgment was continued for 30 days in the case of Mr. B. B. Trask, who was charged with having assaulted Charlie Neal, colored. Prayer for judgment was also continued for 30 days in the case of Mr. Joseph Fenley, charged with obstructing the old Greenville or Masonboro road, the understanding being that he would as once remove the obstructions.

Boy Scouts in Camp

A number of Boy Scouts of Hamlet, N. C., in charge of C. M. Baucom, Scout Master, were in the city yesterday on their way to Fort Fisher, where they go in camp for a week. In the party were C. A. Turner, B. L. E.; James Bland, Francis Chestnut, John W. Freeman, Robert Ftener, Davis Pillow, Hop Pillow, Percey Turner, Ray Turner, Ralph Turner.

CARD OF THANKS

The family of Mrs. J. C. Long, 902 Princess street, wish to express their deep appreciation and sincere thanks to their many kind friends for the many evidences of sympathy and kindness extended during the illness and death of their beloved sister, Mrs. W. H. Hicks. They will always be lovingly remembered. (Advertisement.)

NOTICE OF SALE.

Pursuant to an order of the Superior Court for New Hanover County, entered at the May Term, 1913, in a cause therein pending, wherein Theodore M. Hill, et al., are plaintiffs, and the Scott's Hill Land & Lumber Company is defendant, the undersigned commissioners will, on the 10th day of July, 1913, at 12 o'clock M., at the place of business of the Scott's Hill Land & Lumber Company, Scott's Hill, N. C., sell at public auction, to the highest bidder, for cash, all the following real and personal property, belonging to the said Scott's Hill Land & Lumber Company, and situate in Pender and New Hanover Counties, to-wit:

REAL PROPERTY.

FIRST TRACT: Beginning at a cypress in Old House Branch, and running thence South 2 deg. East, 12 poles, to a stake; thence South 88¼ deg. West, 61 poles, to stake; thence South 237 poles to a light-wood stump; thence North 89 deg. West, 145 poles, to a pine; thence North 257 poles, to a spruce pine, at the run of Old House Branch; thence with the meanders of said branch, to the beginning; containing, by estimation, 300 acres, same being on the North side of the railroad, about two miles from the Scott's Hill Depot.

SECOND TRACT: Beginning at the Southeast corner of the church lot of the M. E. Church, South, at Scott's Hill, in the center of the side track of the Wilmington & Newbern Railroad, and running thence with the course of the side track in a Northeast direction, 172 feet to a stake, 7 feet at right angles from the center of said side track to the West side of the same, and running thence North 59 deg. West, 822 feet, to a stake in a fence line; thence South 33 deg. 15 min. West, 435 feet, to a sycamore tree in the edge of an old grave yard; thence South 68 deg. 45 min. East, 371 feet, to a stake in the Western corner of the Methodist Church lot; thence North 35 deg. 30 min. East, 242 feet, to a stake in the Northern corner of the Methodist Church lot; thence South 53 deg. 15 min. East, 447 feet, to the point of beginning; containing 4.9 acres; and being the tract of land upon which the mill and plant of the Scott's Hill Land & Lumber Company is located.

THIRD TRACT: All the standing timber measuring 12 inches in diameter, 18 inches from the ground, upon the following described tract of land, lying and being in Topsail Township, Pender County, and bounded as follows: On the North by lands of G. W. Huggins; on the East by lands of Jasper Sidbury; on the South and West by lands of W. H. Hill; containing 400 acres, more or less. It is the condition of this deed that the timber shall be removed from the aforementioned land within eight years from the 9th day of March, 1911. The party of the first part hereby conveys to the party of the second part all the rights and privileges of ingress, egress and regress named in the deed from J. T. Foy and wife.

FOURTH TRACT: 1st. Being a certain lot or parcel of land allotted to F. M. Foy in the division of the estate of J. M. Foy, deceased, and described as follows, to-wit: Situated on the East side of Island Creek and South side of Wanny's Branch, beginning at a sweet gum tree on the spot where formerly stood a stooping chinquepin; running thence North 85 East 77 poles, to a stake; thence North 26 poles, to a stake, Henry S. Foy's Northwest corner; thence East with said H. S. Foy's line, 250 poles, to a stake; thence North 58 East, 110 poles, to a gum tree on the run of Wanny's Branch; thence with the run of said branch, along the various courses thereof, about 286 poles, to a maple, the corner of the Sholar tract; thence with the Sholar line, South 44 West, 332 poles, to the beginning; containing by estimation, 337¼ acres, more or less.

2nd. Situated on the East side of Island Creek, and on the North side of Wanny's Branch, beginning at a stake, Henry S. Foy's Northwest corner, referred to in the above tract; running thence South 304 poles to a maple on the North side of Mosquito Branch; thence North 14 deg. East, 84 poles, to a stake; thence East, 134 poles, to a pine; thence with the courses of the bay, first North 63 poles; thence North 83 deg. 50 poles; thence North 50 deg. East 120 poles, to a pine [illegible] line of the Futch tract; thence with said Futch line, North 33 deg. West, 88 poles, to the corner of the Futch tract; and thence West 252 poles to the beginning; containing 322 acres, more or less.

3rd. Adjoining the above two tracts and lying on both sides of Wanny's Branch beginning at a stake at the edge of a bay, adjoining R. K. Bryan's land, being the beginning corner of the Futch tract, near Richard Earle's plantation; running thence North 33 deg. West, 204 poles to a pine stump in Jeremiah Casteen's field; thence South 58 deg. West, 180 poles, across Wanny's Branch to a stake, corner of the two above described tracts; thence South 33 deg. East, along a line of the second tract described above, 100 poles, to a stake in the edge of a bay; thence South 18 deg West, 60 poles, to a pine; thence South 58 deg. East, 60 poles, to a stake; thence North 58 deg. East, 262 poles, to R. K. Bryan's line, to the beginning; containing 229¼ acres, more or less.

Excepting from the last mentioned tract, a certain parcel of land conveyed by J. W. Foy to Oscar P. Batton, by deed dated January —, 1887, and recorded in New Hanover County, in Book Q, page 352, provided the said Batton has legal title thereto, but the said party of this deed conveys all interest he has in said exception, which purports to contain 22 acres.

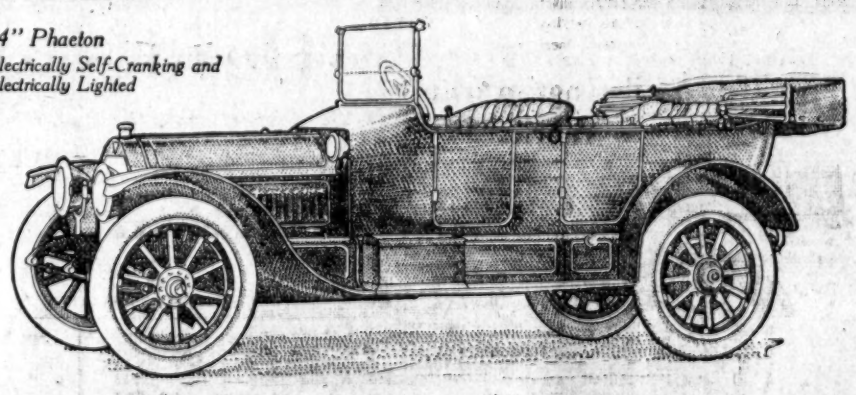
4th. The World's Largest Builders of Six-Cylinder Automobiles

"54" Phaeton
Electrically Self-Cranking and Electrically Lighted



Wherein a Six Excels

You will not consider the purchase of any other automobile if you will study the engineering achievements that have been embodied in the latest HUDSON car—a "Six." Note when you ride in the car the things that are distinctly in advance of other 6-cylinder cars of its day.

Note how it throttles down with traffic on every side to 3 miles an hour on high speed, how smoothly, sweetly it picks up to 58 miles an hour from a standing start in 30 seconds without a jerk. Note that, instead of the jerky motion that some 6 and 4-cylinder cars have, it gives the sense of flying rather than being propelled by machinery.

Any "54" HUDSON you select is capable of 65 miles an hour.

48 Expert Engineers Built this Car

You can have confidence with such an automobile as this for the reason that it is built by 48 expert engineers working together. They worked under the direction of Howard E. Coffin, acknowledged America's foremost designer, who, himself, had built six famous cars and never yet created a failure. These engineers have had a combined experience that will express itself to you when we tell you that they had a hand in building over 200,000 cars of 97 well-known makes and they were gathered from every automobile building nation—England, France, America, Austria, Belgium, Germany and Hungary.

They Have Created a Beautiful Car

In addition to an unusual car from a mechanical standpoint, these engineers have built a beautiful car of handsome artistic lines. The delightful sweep of the rear of the car and the artistic manner with which it blends with the flush-sided body and at the front combines with the sloping cowl running from the windshield to the hood, evidences the touch of the master body designer. The tonneau is roomier than in most cars. Its 12-inch upholstery gives it the easy riding qualities that are expressed in the fact that touring 300 miles a day without fatigue, is possible.

Electric Light Electric Self-Cranking

You merely press a button to start the motor of the "54" HUDSON. Three buttons operate all electric lights.

A Warning Against Possible Disappointment

We have endeavored to secure for this territory as many cars as the factory would give us, yet we feel that our allotment can supply but a percentage of the orders we already have and those we will get.

Hence, may we urge upon you the necessity of fixing a delivery date for your car at the earliest possible moment? To disappoint prospective purchasers on delivery is bad business practice and we do not like to do it, so if you will come, see this handsome new 6-cylinder car—or write or phone for the catalog, it will avert the disappointment that you will experience if you wait.

Fully equipped with speedometer, clock, top, curtain, demountable rims, etc.

Five-passenger Phaeton body $2450.

The New HUDSON "37"—our 4-cylinder model—is $1875 f. o. b. Detroit.

Come, see these cars or write or phone to-day.

COTTON GAINS ACTIVITY

Prices Advance on Renewed Demand From Old and New Crop Shorts. Close Steady at a Net Gain.

New York, June 25.—The cotton market was more active today, with prices advancing on a renewed demand from both old and new crop shorts, and with the close steady at a net gain of from 15 to 22 points.

The opening was firm, at an advance of 1 to 9 points, in response to somewhat better cables than expected, a more favorable view of affairs in the Balkans and larger English spot sales. Late months were relatively firm on the call, but July shot up right after the opening, and the whole list sold about 13 to 18 points net higher late in the forenoon.

Wall Street interests and houses with both Memphis and New Orleans connections were active buyers on this advance, while the demand was supplied on a scale up by realizing of old longs, including houses with foreign connections. When July was selling around 12.20, prominent brokers supposed to be operating for one of the houses that took up May cotton here for shipment to Liverpool, offered that delivery in considerable blocks, and one of them offered to "stop" (sell) 10,000 July at 12.25. This had the effect of checking the advance temporarily, although it had suggested a possible limit on the bull side, but the market firmed up again later on renewed covering, and a more general demand for new crop months. This seemed to be inspired by reports that a prominent Memphis authority estimated the condition of he crop as of June 22, at only 81.3 per cent. compared with his report of 81.2 per cent., as of June 10, and the government report of 79.1 per cent. as of May 25.

Prices reached the highest level of the day in late trading, with July selling at 12.22 or 23 points net higher, while new crop positions showed net gains of from 17 to 18 points. The close was a shade off from the best, under realizing. Friday will be first July notice day in the local market and it is expected that the bulk of the stock here will be tendered, but there are less than 42,000 bales certificated and arrivals here are not yet increasing materially.

Spot cotton closed quiet. Middling uplands, 12.50; middling gulf, 12.75; sales, none.

Cotton futures closed steady.

NEW ORLEANS COTTON MARKET.

New Orleans, June 25.—The cotton market held steady today, throughout the entire session. Several times there were setbacks on profit taking by satisfied longs, but reactions were only temporary and at all times the market had a firm undertone. Buying was based chiefly on reports of too dry weather from several States in the cotton region and the forecast of more dry weather to come.

On the opening, the tone was steady and prices were 5 to 7 points higher on good cables and light offerings. Very little short cotton was offered for sale. It was said that Liverpool was leading in the buying of the new crop months. In the afternoon prices were at their highest, 14 to 15 points over yesterday's final quotations. The close was steady, at a net rise of 9 to 10 points.

THE LIVERPOOL COTTON MARKET.

Liverpool, June 25.—Spot cotton, steady; good business done. Middling fair, 7.31; good middling, 6.97; middling, 6.73; low middling, 6.77; good ordinary, 6.15; ordinary, 5.81. Sales, 10,000, including 8,800 American and 500 for speculation and export. Receipts, 2,000, including 1,500 American. Futures closed steady. THE DRY GOODS MARKET.

New York, June 25.—Although comparatively little new business was placed on cotton goods for the Fall season there was a steady inquiry for small quantities of goods for prompt shipment. Buyers showed an unusual amount of anxiety to procure goods they have on order. Cheap hosiery and underwear were in active demand for the next Spring season. The advance business booked is substantial. Some of the mills are practically sold up on union suits.

WILLIAM J. M'DONALD.

His Contest for Seat Being Considered by Committee.

Washington, June 25.—The House election committee today began consideration of the contest of William J. McDonald, Progressive, for the seat formerly occupied by H. Olin Young, of Michigan.

McDonald urged the committee immediately to pass a resolution seating him. Progressive Leader Murdock endorsed that, but the committee decided the case must take the usual course and gave McDonald 30 days to file a brief.

No Substitute Could Do This

No inferior substitute, but only the genuine Foley Kidney Pills could have rid J. F. Wallich, Bartlett, Neb., of his kidney trouble. He says: "I was bothered with backache, and the pain would run up to the back of my head, and I had spells of dizziness. I took Foley Kidney Pills and they did the work and I am now entirely rid of kidney trouble. My father-in-law, now past 93 years, has taken them and they added years to his life."—Robt. R. Bellamy.

FLUCTUATION IN THE STOCKS

Strong Tone of Market Earlier in the Week Lacking Yesterday—Speculation Interest Centers in Union Pacific.

New York, June 25.—The strong tone of the stock market earlier in the week was lacking today, and movements were held within narrow limits. Some further progress upward was made, with railroad stocks showing to the best advantage, but in the last hour the market dipped downward, and gains were eliminated.

Speculative interest centered in Union Pacific. Buying was influenced by expectations that Washington authorities would approve the dissolution plan, including the trusteeship proposed for Union Pacific, $96,000,000 of Southern Pacific stock in excess of the amount to be turned over to Pennsylvania.

Just before the close came the long-awaited news from Washington of the Attorney General's announcement that an agreement had been reached. The news failed to stimulate the market, apparently having been discounted by the recent rise. Traders who had bought Union Pacific earlier in the week took profits, and it fell more than a point under the day's high price, closing at a fractional net loss.

Cable reports that fresh hostilities had broken out in the Balkans were partly responsible for the heavy tone of the market toward the close. International stocks were most conspicuous in the downward movement. London sold about 15,000 shares today, chiefly Union Pacific.

Contraction of the short interest was partially responsible for the falling off in demand today. There were a few weak stocks. Chesapeake and Ohio fell 2½ to 53, the year's lowest, and Virginia-Carolina made a renewed decline. The drop in Chesapeake and Ohio gave rise to rumors concerning the company's dividend policy, for which, however, there was apparently well established basis.

Bonds were irregular, with some of the more important issues lower. Total sales, par value, $1,150,000. Panama 3s declined ¼ on call.

Total sales were 253,600 shares, including C. and O., 14,800; Lehigh Valley, 3,600; N. and W., 300; Reading, 45,600; St. L. L., pfd., 400; Southern Railway, 700; Southern Railway, pfd., 200; Tennessee Copper, 500; Union Pacific, 45,600; United States Steel, 50,800; Virginia-Carolina Chemical, 900.

STATE JEWELERS ADJOURN

(Continued from Page Five.)

nothing new for the European countries have had this feature for years.

In order that an organization be efficient the units composing it must be efficient. The local clubs should be the sinews of the larger association. The speaker cited a number of instances to show the advantage of co-operation on the part of local associations. The local dealer must never forget that it is for his own interest to organize, to harmonize and to advertise.

Organization is bringing about a peace conference between the retailer, manufacturer and the jobber and is making commercial war indefensible, because co-operation is taking the place of competition. It is teaching us that there is something more to battle for than dollars and cents; teaching us to live and let live, to recognize a code of ethics, a moral side to business, he said.

He was followed by Mr. E. F. Miscally, of Charleston, S. C., who made a very practical talk on co-operation. He stated that it was beyond his mental capacity to define the word but that a common denition was "All by ourselves and for ourselves." In a higher and broader sense, he said, it meant to help each other to nobler and better things, to elevate our manhood.

He discussed the way in which co-operation can be secured and declared that it could not be secured by knocking our neighbors. He cited a mythical case of Jones bringing his grandfather's watch to a jeweler to be fixed. He tells a long story about Smith who pretended to fix it but made a sorry job of it. The jeweler answers by saying that it is a hard job to undo botchwork but that he will do his best. Nine times out of ten, he said, Jones' story is pure fiction. Many jewelers go on the assumption that he is the only honest jeweler. A better way is to be satisfied not only with himself but with his brother jeweler and the craft at large.

He urged that the jewelers help the young man who is beginning, to co-operate with the jobber and the manufacturer, and above all to use common sense and remember the best advertisement that any dealer can have is a satisfied customer.

At the conclusion of Mr. Miscally's address Rev. Fred N. Day, of Winston-Salem, made a memorial address in honor of the memory of the three deceased members of the association, Mr. George Honnet, of Wilmington; Mr. C. F. Neese, of Burlington, and Mr. George Parker, of Rocky Mount. Resolutions of respect were adopted and copies ordered sent to their families.

The report of the Resolutions committee was then read by Mr. R. C. Bernau, of Greensboro, and many of the resolutions provoked considerable discussion.

A resolution was adopted asking that the so-called Crystal Watch Trust be investigated by a committee with a view to seeing that it cease to charge exorbitant prices or else the jewelers will quit buying from them and will import these goods from foreign markets. This committee is to have nothing to do with the government investigation of trusts, but is simply to be a trade investigation.

The delegates to the next National convention were instructed to ask that an assay office be established by the National Association to make reports on goods sold by the different manufacturers, and also ask that a National bureau of information be established.

A resolution fixing the annual dues at $5, $2 to go to the National Association was voted down after considerable discussion. It was decided to allow the dues to remain at $2 a year, and that all of this be retained by the State association.

A resolution fixing the salary of the secretary at $100 a year was adopted. It was also decided to pay the expenses of two delegates to the meeting of the National association.

A resolution asking the Inter-State Commerce Commission to cut the freight rate on cut glass from 2 1-2 cents to 1 1-2 cents was adopted.

Resolutions strongly condemning fake advertising and the selling of fake jewelry were also adopted. The matter of freight rates was also brought up, and a committee appointed to confer with a like committee from the State Merchants' association. The president will later appoint the committee.

At the afternoon session Mr. B. R. Jolly, of Raleigh, gave a demonstration of his gold testing machine. This makes it possible to find the exact percentage of gold in any piece of jewelry.

The auditing committee reported that it had found the books of the secretary in excellent shape. The committee on applications reported that it had received a number of applications for membership and the recommendations were adopted. With the exception of 12 or 15 jewelers every jeweler in the State is a member of the association.

The committee on nominations recommended that all of the old officers with the exception of the vice president, be re-elected. For vice president they recommendd Mr. J. T. Burke, of Wilmington. Their report was adopted by a unanimous vote.

The place for the next meeting caused considerable discussion. Urgent invitations were received from Fayetteville, Durham and Raleigh. It was the concensus of opinion, however, that the convention should go to the western part of the State next year, and as Asheville was the most logical place it was decided to go to that city. The time for the meeting was fixed for June 23rd, 24th, and 25th, 1914.

A rising vote of thanks was extended the citizens and the jewelers of Wilmington, for their splendid entertainment, to the papers of the city, (a special vote being taken for The Star) for giving publicity to the transactions of the meetings and to the visiting salesmen, whose talks helped so much to make it a success. A rising vote of thanks was also given to Mr. and Mrs. Robert F. Natian, of the Jewelers' Circular, for their service in making a careful report of the proceedings of the meeting.

Before adjournment there were many speeches from the members expressive of their appreciation of the enjoyment and benefit which they had derived from the meeting. At 5:30 o'clock the meeting adjourned, and the members went on an automobile ride over the city of Wilmington.

Many of the delegates left on the night trains for their homes while others waited until this morning, and others will spend several days at the beach.

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with phosphate powder:

68¼ Per Cent. Digested

Bread made with alum powder:

67¾ Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

INVESTIGATOR SUSPENDED

Gathered Evidence in White Slave Cases for Government

San Francisco, Cal., June 25.—Clayton Herrington, Federal investigator of white slave cases for the United States Department of Justice, who gathered the evidence in the Diggs-Caminetti cases, and who called upon President Wilson to remove Attorney General McReynolds from office for his action in delaying the trials, was suspended from office today on an order from Washington. The order was signed by A. Bielaski, chief of the Bureau of Investigation, Department of Justice, and was as follows:

"I am advised that telegram has been received by President of the United States sent by you seriously redecting upon the integrity of attorney general. You are hereby suspended from duty without pay, pending receipt of any explanation you may care to make."

Just prior to receiving this information Mr. Herrington had dispatched the following night letter to President Wilson:

"As a citizen of California I charge that officials in the Department of Justice and of Commerce and Labor, in disregard of judgments of the courts and in violation of law, have prevented the deportation of French prostitutes in this case. I demand an investigation of these matters, complete information as to which is in the files at Washington. On March 14th, Secretary Wilson was informed about some of these cases."

In a public statement issued tonight Mr. Herrington said:

"The President approves in words the way in which McReynolds had dealt with the Diggs-Caminetti and Western fuel cases. He disapproves in deeds by ordering the immediate trial of all the defendants, including those McReynolds tried to save. He ought therefore to dismiss McReynolds and retain McNab.

"To sustain a Washington official whose decision he overrules, and blame another for doing what he himself now orders done, is not only inconsistent and unjust, but is a humiliating evasion of the responsibilities of his high station.

"McReynolds' explanation is even more pitiable. He protests that he is 'profoundly conscious that his acts were free from unworthy motive.' So was Lord Bacon, who accepted bribe money, because it would not influence him. There are influences other than financial ones.

"McReynolds' excuse is that the 'facts were not fresh in his memory,' and he blames McNab for not jogging it a second time. McReynolds needs a better memory, as much as the President needs a better attorney general.

"However, my object has been accomplished. The attorney general has been compelled to order these cases to trial forthwith and the sinister influences to which he had yielded have been frustrated."

ATE TINTED CRAYON

Atlanta School Girl Dies from Eating Colored Chalk

Atlanta, Ga., June 25.—Mary Tribbie, aged seven, of Atlanta, today lost her life-long fight for life, physicians believing that her death was caused by eating tinted crayon at school. On June 13th she was taken violently ill and since that time has remained in a state of partial paralysis, with occasional feeble rallies. The case completely puzzled local physicians. The child's schoolmates said that they had seen her eat colored crayon.

FREDERICK C. PENFIELD.

Will Go to Australia as American Ambassador.

Washington, June 25.—Frederick Courtland Penfield, of Germantown, Pa., has been selected to be ambassador to Austria. It became known today that the Austrian government was being consulted as to Mr. Penfield's acceptability.

In the list which the President took to the Senate recently, Mr. Penfield was slated for ambassador to Austria, but since then there had been talk of promoting Maurice Francis Egan, at present Minister to Denmark, to the Vienna post, and of sending Mr. Penfield to Greece. The President, however, it was learned on good authority, has decided not to change from his original purpose. Mr. Penfield was active in the Wilson campaign, and has had experience in the diplomatic service. He was appointed United States vice consul general at London in 1885, and served as diplomatic agent and consul general to Egypt with rank of minister resident from 1893 to 1897. He has traveled extensively and has written much on international politics.

Get the Habit

Tackle Talk
When you get ready to fish, naturally your mind turns to where you should go to get good Tackle of the Right Kind.
We've got the good Tackle, and furthermore, if you want to "line up" on what to use—why just ask Tomz. Willie Tomz—or Willie, as he is familiarly known by the sporting fraternity, is an encyclopedia on the art of fishing—what to fish with and where to go, and when! Because he knows what he is talking about.
SPRING BUTT RODS
made especially to order for us.
PRICE $12.50 EACH
They conform in weight and size to regulations required in this season's Fishing Contest.

They are Beauties — nice, straight-grained, Genuine Lancewood and Genuine Bethabara, too—with all the nice little features that should belong to a high-class rod like these.
Deep Sea Poles, 15 to 20 ounce, $2.50 to $10.00. Reels, 200 and 300 yards. "Free Spool," $8.00 to $15.00. Reels, Deep Sea, without Free Spool feature, $2.00 to $6.00.
Hooks, Snells, Squids, everything to contribute to your pleasure in this line, to the salt, as well as the fresh water fisherman.
Don't forget to call for Willie. It's a joy for him to show, whether you buy or not!
N. Jacobi Hardware Co.
Willie's last "Drum" Fish caught weighed 43 pounds!

Your Vacation Assured
You must plan ahead if you are to take a vacation this Summer. Else when the time comes, you won't have the funds.
We invite you to start a Vacation Fund with this bank. You are at liberty to draw out your money whenever you need it.
It is high time you began to save for the vacation which is coming later in life—old age. A bank account added to from time to time will insure a happy vacation in later life when your work is over and you are ready to rest.
The sooner you begin, the quicker you'll be able to retire and the further away from helplessness. Small accounts will receive careful attention.
